Homeopathy as Energy Medicine Richard Grossinger, 2024-06-25 Comprehensively examines what homeopathy is and places the practice within the larger framework of energy medicine and microdose effects Lays out the principles and origins of homeopathy explaining its discovery and development by Samuel Hahnemann Explores the rise and fall and current rise in popularity of homeopathy over the years and its resonance during the COVID 19 pandemic Helping first time patients as well as longtime devotees gain a deeper understanding of just what homeopathy is Richard Grossinger presents a comprehensive overview of the healing art explaining its essential philosophy and methodology and showing how it relates to the broader concepts of energy medicine and nanodose treatments He introduces homeopathy s basic framework and explores its three

central principles the Law of Similars microdose transmission of energetic information and potentization Addressing the many critiques of homeopathy he looks at the power of the placebo effect and offers a comparison of homeopathy to other alternative and mainstream healing modalities Placing homeopathy in a historical context he explores doctor Samuel Hahnemann's discovery of homeopathy in the late 18th century and looks at medical and pharmaceutical systems that preceded homeopathy such as alchemy Paracelsan herbalism and Greek and Roman medicine He examines homeopathy's rise and fall in popularity over the years including its renaissance in early 19th century North America and its revival in the counterculture of the 1970s He looks at modern evolutions of homeopathy including Dr Rajan Sankaran's sensations theory homeopathy's resonance during the COVID 19 pandemic the concept of the pill less pharmacy the microdose basis of astrological charts and psychic homeopathy Presenting a contemporary understanding of homeopathy as energy medicine this book offers everything needed to begin self healing with the power of the nanodose *Homeopathy: The Great Riddle* Richard Grossinger, 2012-12-18 This is a wonderfully succinct book which sets forth the history essence and methodology of homeopathy The book is well organized in 5 major sections There is a very thorough overview of the precepts and tenets of the practice its historical origins a detailed and well covered biography of Samuel Hahnemann and a review of the politics of the allopathy v homeopathy debate It is further embellished with copious annotations an appendix with an actual case history and a very fine reference for homeopathic resources such as organizations suppliers and other texts covering a variety of related topics Call it a perfect Homeopathy 101 text if you will the author makes a very even handed presentation of the material including the politics of medicine as they have evolved in the USA over the past century Homeopathy Reconsidered Natalie Grams, 2019-01-07 Homeopathy is over 200 years old and is still experiencing an uninterrupted influx of new practitioners and patients Many patients and therapists swear by this alternative healing method which in some countries is even financed by health insurances This seems completely incomprehensible to critics For them it is clearly evident that homeopathy is hopelessly unscientific and has at best a placebo effect The positions of supporters and opponents seem to be just as immutable as they are incompatible This book answers some essential and fascinating questions What remains of the founding ideas of homeopathy in 21st century medicine Does it really work and if so how Which of the original theories can we still apply today with a clear conscience and use for the benefit of patients and the healthcare system Where does homeopathy have its limits and does it indeed need to be critically reconsidered and evaluated The author has dealt with the points of criticism for years but at the same time also takes seriously the wishes and concerns of patients who often feel insufficiently cared for by conventional medical practice Against the background of her own personal history her book attempts to bridge the gap between these two traditionally opposing camps **Homeopathic Pharmacy** Steven B. Kayne, 2006-01-01 This 2nd edition gives every health professional and pharmacist the broad information they need to dispense and counter prescribe homeopathic methods with confidence Designed as both a complete source of initial
