Homeschooling For Excellence:

Homeschooling for Excellence David Colfax, Micki Colfax, 2009-05-30 Break away from the failings of schools and embrace the power of homeschooling through the guidance of the Colfax family's teachings. For over fifteen years David and Micki Colfax educated their children at home. They don't think of themselves as pioneers though that's what they became. Unhappy with the public schools the Colfaxes wanted the best education possible for their four sons: a program for learning that met the evolving needs of each child and gave them complete control of how and what their children learned. The results: A prescription for excellence. Harvard educations for their sons Grant, Drew, and Reed. Their fourth son is still too young for college. Now the Colfaxes tell how all parents can become involved in homeschooling. In a straight talking book that reads like a frank conversation among friends they tell what they did and how they did it: their educational approaches, the lessons they learned, and what materials, books, equipment, educational aids proved most useful over the years. Best of all they show you how you can take charge of your children's education in an invaluable sourcebook that will help you find a rewarding and successful alternative to our failing schools.

The Homeschooling Book of Answers Linda Dobson, 1998 Homeschooling is revolutionizing the way many children in this country are educated. Increasing numbers of parents are finding that homeschools provide their children with a learning environment superior to that of public schools. Whether you are currently homeschooling or are just considering it you've probably had questions such as: Can I afford it? How do I set up a plan of study? And most important: is homeschooling right for my child? Here at last are honest, practical answers to all of your questions and more. Drawing from the collective wisdom and experience of the 39 most respected mentors in the field, *The Homeschooling Book of Answers* is your essential guide to one of the biggest trends in education. Learn how homeschooling may be your family's best method for providing your child with the finest education. Your child deserves it. I can't imagine a more helpful book on homeschooling: a happy marriage of the realistic with the idealistic, the passionate with the practical. Until our schools are not just reformed but truly transformed every parent should consider this alternative. George Leonard, author of *Education and Ecstasy* and *Mastery*. If you plan to homeschool make sure you read this book. Your child's education depends on it. Senator Vince Illuzzi. *The Homeschooling Book of Answers* is filled with common sense for homeschoolers or any other parents who care deeply about their children's education. This book is a must read for people who care about how and what their children learn at home or in one of the expensive institutional juggernauts that have a difficult time keeping up with them. Craig Lancto, educator and newspaper columnist. Delightfully easy to read, this most timely, valuable, informative and critically needed work covers the home school issue with an encyclopedic thoroughness. I can only applaud and pass the word. Joseph Chilton Pearce, author of *The Crack in the Cosmic Egg* and *Magical Child*. Contributors include John Taylor Gatto, author of *Dumbing Us Down*; David and Micki Colfax, authors of *Homeschooling for Excellence*; Raymond and Dorothy Moore, authors of *School Can Wait*; Mark and Helen Hegener, publishers of *Home Education Magazine*; Susannah Sheffer, editor of
