Hawaii's Humpbacks Unveiling The Mysteries:

Humpback Whale James David Darling, 2009-04 *Wind, Wings, and Waves* Rick Soehren, 2019-05-31 From coral reefs to stargazing and everything in between *Wind Wings and Waves* is your personal guide to nature in Hawaii. With color illustrations throughout this engaging book introduces you to the islands natural world and helps to identify common plants, birds, and fish. More than a hundred self-guided field trips on six islands will inspire you to get outdoors and explore nature on your own. In *Wind Wings and Waves* you'll find a knowledgeable and good humored friend telling fascinating insider facts on this magical place. How, when, and where you can listen to whales singing. Where to see unique Hawaiian plants and birds. Why coral reefs are teeming with weird, wonderful life forms and the best reefs to visit. Why Hawaii is the best place in the world for stargazing. How Hawaii became a melting pot of cultures and cuisines including a mini guide to the unique foods of the islands. How volcanoes make new Hawaiian islands and the forces that make these islands travel and eventually disappear. How plants and animals made their way to the most isolated place on the planet and what makes Hawaii a natural laboratory for evolution. The amazing story of Polynesian voyagers who navigated to Hawaii by the stars. By sharing his love for the natural wonders of Hawaii, biologist Rick Soehren helps you make the most of your time in the islands, whether you are having the vacation of a lifetime or lucky enough to live in Hawaii.

Field Guide to Whales, Dolphins and Porpoises Mark Carwardine, 2022-05-26 Practical and portable, this is the ultimate field guide to the world's cetaceans. This outstanding new field guide to whales, dolphins, and porpoises is the most comprehensive, authoritative, and up-to-date guide to these popular mammals. With more than 500 accurate illustrations, complete with detailed annotations pointing out the most significant field marks, *Field Guide to Whales, Dolphins and Porpoises* covers all 93 species and every subspecies in the world. Many of the world's most respected whale biologists have collaborated on the concise text, which is packed with helpful identification tips from cetacean expert Mark Carwardine. Mark's informative text is accompanied by up-to-date distribution maps for each species. Beautifully designed to ensure critical information is quickly accessible, this is an indispensable resource that every whale watcher will want to carry out to sea.

PC World, 2009 **Humpback Whales** James David Darling, Jim Darling, 2008-10 This guide explains what researchers have learned about humpback whales on their winter breeding grounds in Hawaii. Spectacular color photos help whale watchers and educators identify and understand humpback behavior. Proceeds support whale research.

The National Geographic Magazine, 2007 National Geographic, 2007 **The Musical Human** Michael Spitzer, 2021-04-13 Michael Spitzer has pulled off the impossible: a *Guns, Germs, and Steel* for music. Daniel Levitin. A colossal history spanning cultures, time, and space to explore the vibrant relationship between music and the human species. 165 million years ago saw the birth of rhythm. 66 million years ago was the first melody. 40 thousand years ago *Homo sapiens* created the first musical instrument. Today, music fills our lives. How we have created, performed, and listened to this music throughout history has defined what our species is and how we understand who we are. Yet music is an overlooked

part of our origin story The Musical Human takes us on an exhilarating journey across the ages from Bach to BTS and back to explore the vibrant relationship between music and the human species With insights from a wealth of disciplines world leading musicologist Michael Spitzer renders a global history of music on the widest possible canvas looking at music in our everyday lives music in world history and music in evolution from insects to apes humans to AI Through this journey we begin to understand how music is central to the distinctly human experiences of cognition feeling and even biology both widening and closing the evolutionary gaps between ourselves and animals in surprising ways The Musical Human boldly puts the case that music is the most important thing we ever did it is a fundamental part of what makes us human

Sharks and Rays Timothy C. Tricas, Leighton R. Taylor, 1997 Maligned and misunderstood sharks are possibly the most feared yet the most fascinating sea creatures Of about 350 known species of shark only a handful are a threat to humans In reality it is humans who pose the greater threat hunting and fishing some species to the verge of extinction Diverse in appearance they range from the tiny cookiecutter or cigar shark to the massive whale shark Stranger still are the rays with names such as the banded stingaree and the Javanese cownose ray Curiously shaped like craft from outer space some are so highly colored they could be the creation of a whimsical painter This book represents the most up to date information and thinking on our understanding of these extraordinary inhabitants of the deep their highly developed senses and intellect and their ecology biology and behavior What is being done to protect them In what ways are they still being exploited Sharks and Rays highlights the advances being made in shark and ray conservation

Learning, Teaching, and Community Lucinda Pease-Alvarez, Sandra R. Schecter, 2006-04-21 This volume brings together established and new scholarly voices to explore how participatory and situated approaches to learning can contribute to educational innovation The contributors critical examinations of educational programming and engagements provide insights into how educators youth families and community members understand and enact their commitments to diversity and equitable access Collectively these essays complicate notions of community alerting readers to ways in which community can be constructed other than in geographical and ethnoracial terms as alliances and collaborations of individuals joining together to accomplish or negotiate shared agendas The focus on agency combined with social context a dialectic to which all of the authors speak enlarges and invigorates our sense of what is pedagogically possible in societies characterized by diversity and flux Part I Linking Pedagogy to Communities focuses on dynamic initiatives where practitioners collaborate with community members and other professionals as they acknowledge and build on the cultural linguistic and intellectual resources of ethnic minority students and their communities Part II Professional Learning for Diversity centers on the authors experiences in facilitating opportunities for working with prospective and practicing teachers to develop situated pedagogies highlighting both the challenges that emerge and the transformations that occur Part III Learning in Community and Community in Learning illustrates how educational innovation can extend beyond the realm of schools and classrooms by elucidating ways in which

individuals construct learning venues in out of school settings Learning Teaching and Community Contributions of Situated and Participatory Approaches to Educational Innovation is a compelling and timely text ideally suited for courses focused on teacher education and development informal learning equity and education multilingual and multicultural education language and culture educational foundations and school reform educational restructuring and will be equally of interest to faculty researchers and professionals in these areas
