with how to manage electronic serials and the issues associated with them In this book readers will see how library professionals just like themselves deal with electronic journals their transitions trends and technicalities With helpful graphs figures and charts making the information in the book easily accessible and understandable E Serials Collection Management Transitions Trends and Technicalities will increase your understanding of the interrelationship between pricing licensing technological aspects and proximity to publishers and libraries from the point of view of a leading global subscription agent the benefits and pitfalls of using vendors publishers third party providers and subscription agents for electronic journal services how information professionals are currently developing and cataloging online materials with a survey of 70 libraries the IP ranges vs passwords conundrum the advantages of joining a consortium to make journals available to users at a lower cost to your library how to determine the amount of usage your electronic products are getting claiming and troubleshooting e journals with a fascinating case study from UCLA's biomedical library how to efficiently handle electronic articles destined for a reserve collection how to select an e book model that will satisfy your users and your staff open access systems and software and what they mean to your institution regional accreditation for e serials using a database driven approach to manage e resources and more

Dying to Learn Michael A. Hunzeker, 2021-07-15 In *Dying to Learn* Michael Hunzeker develops a novel theory to explain how wartime militaries learn He focuses on the Western Front which witnessed three great power armies struggle to cope with deadlock throughout the First World War as the British French and German armies all pursued the same solutions assault tactics combined arms and elastic defense in depth By the end of the war only the German army managed to develop and implement a set of revolutionary offensive defensive and combined arms doctrines that in hindsight represented the best way to fight Hunzeker identifies three organizational variables that determine how fighting militaries generate new ideas distinguish good ones from bad ones and implement the best of them across the entire organization These factors are the degree to which leadership delegates authority on the battlefield how effectively the organization retains control over soldier and officer training and whether or not the military possesses an independent doctrinal assessment mechanism Through careful study of the British French and German experiences in the First World War *Dying to Learn* provides a model that shows how a resolute focus on analysis command and training can help prepare modern militaries for adapting amidst high intensity warfare in an age of revolutionary technological change

Understanding Medieval Primary Sources Joel T. Rosenthal, 2014-06-03 Medieval society created many kinds of records and written material which differ considerably giving us such sources as last wills sermons manorial accounts or royal biographies Primary sources are an exciting way for students to engage with the past and draw their own ideas about life in the medieval period *Understanding Medieval Primary Sources* is a collection of essays that will introduce students to the key primary sources that are essential to studying medieval Europe The sources are divided into two categories the first part treats some of the many generic sources that have been preserved such as wills letters royal and secular narratives and sermons Chapter by

chapter each expert author illustrates how they can be used to reveal details about medieval history The second part focuses on areas of historical research that can only be fully discovered by using a combination of primary sources covering fields such as maritime history urban history women s history and medical history Understanding Medieval Primary Sources will be an invaluable resource for any student embarking on medieval historical research **Get Close** Rustin

Thompson,2019-01-02 Get Close gives filmmakers new practical tools to make documentaries for less money less hassle and less time *How to Do It* Rudolph M. Bell,2000-10-01 How to Do It shows us sixteenth century Italy from an entirely new perspective through manuals which were staples in the households of middlebrow Italians merely trying to lead better lives Addressing challenges such as how to conceive a boy the manuals offered suggestions such as tying a tourniquet around your husband s left testicle Or should you want to goad female desires throw 90 grubs in a liter of olive oil let steep in the sun for a week and apply liberally on the male anatomy Bell s journey through booklets long dismissed by scholars as being of little literary value gives us a refreshing and surprisingly fun social history Lively and curious reading particularly in its cascade of anecdote offered in a breezy cozy journalistic style Lauro Martines Times Literary Supplement Bell s fascinating book is a window on a lost world far nearer to our own than we might imagine How pleasant to read his delightful informative and often hilarious book Kate Saunders The Independent An extraordinary work which blends the learned with the frankly bizarre The Economist Professor Bell has a sly sense of humor and an enviably strong stomach He wants to know how people actually behaved not how the Church or philosophers or earnest humanists thought they should behave I loved this book

Edwards, Jr.,2010-09-01 A History of Preachingbrings together narrative history and primary sources to provide the most

comprehensive guide available to the story of the church's ministry of proclamation. Bringing together an impressive array of familiar and lesser known figures, Edwards paints a detailed, compelling picture of what it has meant to preach the gospel. Pastors, scholars, and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching. Volume 1, appearing in the print edition, contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative. Along the way, the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time: Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth. All of their distinctive contributions receive careful attention. Yet lesser known figures and developments also appear from the ninth century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands, preachers of the eighteenth century Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. Volume 2, contained on the enclosed CD-ROM, contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. The author has written an introduction to each selection, placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Ecumenical in scope, fair-minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver, and listen to a sermon, *A History of Preaching* will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. This work is expected to be the standard text on preaching for the next 30 years, says Ann K. Riggs, who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury Western Theological Seminary, is co-moderator of the commission, which studies church uniting and church dividing issues. *A History of Preaching* is ecumenical in scope and will be relevant in all our churches, we all participate in this field, says Riggs from EcuLink Number 65, Winter 2004/2005, published by the National Council of Churches.

Gavel to Gavel Kevin Rozzoli, 2006-09-01. The book takes the reader on a fascinating journey through the corridors of parliament as seen through the eyes of a practitioner of thirty years' experience in the bear pit on Macquarie Street. The author's seven years as one of its most highly regarded Speakers provides the background for this detailed and informative study of parliamentary practices and procedures. It lifts the veil on much that mystifies the outsider. It is a valuable source of information for those who are aspiring to enter parliament or are already in parliament, for those who are interested in studying parliament purely out of interest or as part of a formal course, and for those who wish to influence their parliament in the development of public policy.
