ICMLG2016-4th International Conference on Management, Leadership and Governance Dmitry Vasilenko and Natalia Khazieva, Cyber Breach Response That Actually Works Andrew

Gorecki, 2020-07-08 You will be breached. The only question is whether you'll be ready. A cyber breach could cost your organization millions of dollars. In 2019, the average cost of a cyber breach for companies was \$3.9M, a figure that is increasing 20-30% annually. But effective planning can lessen the impact and duration of an inevitable cyberattack. Cyber Breach Response That Actually Works provides a business-focused methodology that will allow you to address the aftermath of a cyber breach and reduce its impact to your enterprise. This book goes beyond step-by-step instructions for technical staff, focusing on big picture planning and strategy that makes the most of business impact. Inside, you'll learn what drives cyber incident response and how to build effective incident response capabilities. Expert author Andrew Gorecki delivers a vendor-agnostic approach based on his experience with Fortune 500 organizations. Understand the evolving threat landscape and learn how to address tactical and strategic challenges to build a comprehensive and cohesive cyber breach response program. Discover how incident response fits within your overall information security program, including a look at risk management. Build a capable incident response team and create an actionable incident response plan to prepare for cyberattacks and minimize their impact to your organization. Effectively investigate small and large scale incidents and recover faster by leveraging proven industry practices. Navigate legal issues impacting incident response, including laws and regulations, criminal cases, and civil litigation, and types of evidence and their admissibility in court. In addition to its valuable breadth of discussion on incident response from a business strategy perspective, Cyber Breach Response That Actually Works offers information on key technology considerations to aid you in building an effective capability and accelerating investigations to ensure your organization can continue business operations during significant cyber events.
