Preparing For Your Upcoming ACLS Class

UPDATED May 2016

Course Curriculum: 2015 American Heart Association (AHA) Guidelines for Advanced Cardiac Life Support (ACLS)

AHA recommends the following to prepare for the course:

1. Able to perform high-quality CPR and use an AED
2. Understand the 10 cases in the ACLS Provider Manual
3. Understand the ACLS algorithms for the cases in the ACLS Provider Manual
4. Complete the online ACLS Pre-course Self-Assessment, Rhythm Identification, Pharmacology, and Practical Application with a minimum score of 70%.

Recommended Resources for Course Preparation:

*Advanced Cardiac Life Support Provider Manual (2015)

Optional Resources for Course Preparation:

- *AHA Pocket card – ACLS Cardiac Arrest, Arrhythmias, and Their Treatment
- *AHA Pocket card – ACLS Acute Coronary Syndromes and Stroke
- *AHA 2015 Handbook of Emergency Cardiovascular Care for Healthcare Providers
- *ACLS Student Website supplementary resources

**** The Precourse Self-Assessment is mandatory. Link can be found on page ii of the ACLS Provider Manual and <http://www.heart.org/eccstudent>. The password is acsls15. You must pass with a score of 70% or better. This is a requirement from the AHA. Please bring a printed copy or electronic picture of your completed assessment with you to class.****

To successfully pass the ACLS course, AHA requires you to pass a written exam with a score of $\geq 84\%$ and to successfully manage a simulated megacode. A megacode is a hands-on, dynamic, in real time practice of treating a life-threatening cardiac emergency. The cardiac emergency will progress in the following sequence of rhythms: 1) an arrhythmia with a pulse, 2) a SHOCKABLE, pulseless rhythm, 3) a NON-SHOCKABLE, pulseless rhythm, and finally 4) a return of spontaneous circulation. Each potential scenario can be found in the Appendix section of the ACLS Provider Manual.

In managing the megacode as the team leader, you will be required to: 1) recognize and correctly identify the cardiac rhythms or arrhythmias, 2) assess the patient's general condition, 3) effectively treat the patient according to ACLS algorithms, 4) utilize the recommended drugs and dosages, and 5) safely administer any recommended electrical or shock treatment using a manual defibrillator.

Course preparation is highly recommended to make your experience valuable, as well as to ensure your successful completion. You are encouraged to purchase or borrow an ACLS Provider Manual to assist you in preparation for your course and the written exam. Any of the other AHA resources listed above may also be helpful. You will be allowed to use AHA resources for the megacode and the written exam.
