Rome in Egypt's Eastern Desert Hélène Cuvigny,2021-08-21 A detailed archaeological study of life in Egypt s Eastern desert during the Roman period by a leading scholar Rome in Egypt s Eastern Desert is a two volume set collecting H l ne Cuvigny s most important articles on Egypt s Eastern Desert during the Roman period The excavations she directed uncovered a wealth of material including tens of thousands of texts written on pottery fragments ostraca Some are administrative texts but many more are correspondence both official and private written by and to the people mostly but not all men who lived and worked in these remote and harsh environments supported by an elaborate network of defense administration and supply that tied the entire region together The contents of Rome in Egypt s Eastern Desert have all been published earlier in peer reviewed venues but most appear here for the first time in English All of the contributions have been checked or translated by the editor and brought up to date with respect to bibliography and some have been significantly rewritten by the author in order to take account of the enormous amount of new material discovered since the original publications A full index makes this body of work far more accessible than it was before This book assembles into one collection thirty years of detailed study of this material conjuring in vivid detail the lived experience of those who inhabited these forts often through their own expressive language and the realia of desert geography military life sex religion quarry operations and imperial administration in the Roman world Digest of All Reported Cases Decided by All Federal

and Provincial Courts of Canada, and by the Privy Council on Appeal Therefrom and Including Dominion Law Reports Vols. 1 to 50 Inclusive During the Years 1911 to January 1, 1920 Chester E. T. Fitzgerald, 1920 **In My Power** Konstantin Dierks, 2011-09-29 In My Power tells the story of letter writing and communications in the creation of the British Empire and the formation of the United States In an era of bewildering geographical mobility economic metamorphosis and political upheaval the proliferation of letter writing and the development of a communications infrastructure enabled middle class Britons and Americans to rise to advantage in the British Atlantic world Everyday letter writing demonstrated that the blessings of success in the early modern world could come less from the control of overt political power than from the cultivation of social skills that assured the middle class of their technical credentials moral deserving and social innocence In writing letters the middle class not only took effective action in a turbulent world but also defined what they believed themselves to be able to do in that world Because this ideology of agency was extended to women and the youngest of children in the eighteenth century it could be presented as universalized even as it was withheld from Native Americans and enslaved blacks Whatever the explicit purposes behind letter writing may have been educational improvement family connection business enterprise the effect was to render the full terms of social division invisible both to those who accumulated power and to those who did not The uncontested power that came from letter writing was Konstantin Dierks provocatively argues as important as racist violence to the rise of the white middle class in the British Atlantic world
