Literary Interventions in the Campaign Biography Michael J. Blouin, 2021-11-28 Literary Interventions in the Campaign Biography considers campaign biographies written by major authors including Nathaniel Hawthorne William Dean Howells Lew Wallace Jacob Riis and Rose Wilder Lane Whereas a number of cultural historians have previously considered campaign biographies to be marginal or isolated from the fictional output of these figures this volume revisits the biographies in order to understand better how they inform and are informed by seismic shifts in the literary landscape The book illuminates the intersection of American literature and politics while charting how the Presidency has developed in the public imagination In so doing it poses questions of increasing significance about how we understand the office as well as its occupants today

Lacan, Deleuze and World Politics Andreja Zevnik, 2016-02-26 This book aims to re-think the way in which the subject is inscribed in the modern political and does so by exploring the potentiality of Lacan's Deleuzian theoretical framework It concerns a different ontology and a non-dualist understanding of political and legal existence by focusing on questions such as how to think alternative notions of political existence and what kind of political social and legal

order do these come to create This investigation into political appearance of subjects through concepts of law body and life is led and influenced by the thought of Gilles Deleuze and Jacques Lacan as well as Alain Badiou Antonio Negri and Slavoj Žižek The book takes on various conceptualisations of life explores the relationship between law and life and develops an alternative notion of legal and political existence in particular in the context of rights On the back of Guantanamo's legal and political discourses this work aims to show why and how the problems of world politics or the limitations of human rights discourse require an engagement with questions such as what it means to exist as a human being what forms of life are politically recognised which are not and why this distinction By pointing to a different ontology for thinking and understanding global politics and demonstrating how a trans disciplinary and philosophical approaches can foster the debates in world politics this book will be of interest to postgraduates and scholars working on critical normative ideas in international politics critical security studies and critical legal studies *Jacques Lacan* Sean Homer, 2004-11-04 Jacques Lacan is one of the most challenging and controversial of contemporary thinkers as well as the most influential psychoanalyst since Freud Lacanian theory has reached far beyond the consulting room to engage with such diverse disciplines as literature film gender and social theory This book covers the full extent of Lacan's career and provides an accessible guide to Lacanian concepts and his writing on the imaginary and the symbolic the Oedipus Complex and the meaning of the phallus the subject and the unconscious the real sexual difference Locating Lacan's work in the context of contemporary French thought and the history of psychoanalysis Sean Homer's *Jacques Lacan* is the ideal introduction to this influential theorist *Ontology and Perversion* Boštjan Nedoh, 2019-06-04 This book examines the philosophical and political relevance of perversion in the works of three key representatives of contemporary philosophy and psychoanalysis Gilles Deleuze Giorgio Agamben and Jacques Lacan Perversion is often understood simply in terms of cultural or sexual phenomena By contrast Boštjan Nedoh places perversion at the heart of philosophical ontological and political issues in the works of Deleuze Agamben and Lacan He examines the relevance of their discussions of perversion for their respective critical ontological projects By tracing the differences between these thinkers understanding of perversion the book finally draws lines of delimitation between the vitalist and the structuralist or psychoanalytic philosophical positions in contemporary philosophy *On the Greek Origins of Biopolitics* Mika Ojakangas, 2016-04-28 This book explores the origins of western biopolitics in ancient Greek political thought Ojakangas's argues that the conception of politics as the regulation of the quantity and quality of population in the name of the security and happiness of the state and its inhabitants is as old as the western political thought itself the politico philosophical categories of classical thought particularly those of Plato and Aristotle were already biopolitical categories In their books on politics Plato and Aristotle do not only deal with all the central topics of biopolitics from the political point of view but for them these topics are the very keystone of politics and the art of government Yet although the Western understanding of politics was already biopolitical in classical Greece the book does not argue that the history of biopolitics

would constitute a continuum from antiquity to the twentieth century Instead Ojakangas argues that the birth of Christianity entailed a crisis of the classical biopolitical rationality as the majority of classical biopolitical themes concerning the government of men and populations faded away or were outright rejected It was not until the renaissance of the classical culture and literature including the translation of Plato's and Aristotle's political works into Latin that biopolitics became topical again in the West The book will be of great interest to scholars and students in the field of social and political studies social and political theory moral and political philosophy IR theory intellectual history classical studies Culture and Politics on the Couch Thomas Svolos, 2024-09-04 In this book Thomas Svolos tests the claim that a practicing psychoanalyst is afforded a unique perspective on issues of politics social and cultural affairs trained as they are to look out for that which is not readily transparent to a patient This might be something opaque something bizarre even something that is part of the experience of the patient that they are not conscious of what Sigmund Freud and Jacques Lacan called at different points in their work desire libido or jouissance It argues that by taking account in one way or another of desire libido and jouissance we might find another dimension to political social and cultural matters a dimension that is present but generally opaque to those who deal with them In a series of original texts and edited dialogues brought together for the first time this lively and accessible work offers novel insights on topics ranging from race climate change and partisan politics to science fiction and Bruce Springsteen It will appeal to students scholars and those with a general interest in psychoanalysis politics cultural studies and critical theory Critical Imaginations in International Relations Aoileann Ní Mhurchú, Reiko Shindo, 2016-01-29 This exciting new text brings together in one volume an overview of the many reflections on how we might address the problems and limitations of a state centred approach in the discipline of International Relations IR The book is structured into chapters on key concepts with each providing an introduction to the concept for those new to the field of critical politics including undergraduate and postgraduate students as well as drawing connections between concepts and thinkers that will be provocative and illuminating for more established researchers in the field They give an overview of core ideas associated with the concept the critical potential of the concept and key thinkers linked to the concept seeking to address the following questions How has the concept traditionally been understood How has the concept come to be understood in critical thinking How is the concept used in interrogating the limits of state centrism What different possibilities for engaging with international relations have been envisioned through the concept Why are such possibilities for alternative thinking about international relations important What are some key articles and volumes related to the concept which readers can go for further research Drawing together some of the key thinkers in the field of critical International Relations and including both established and emerging academics located in Asia Europe Latin America and North America this book is a key resource for students and scholars alike **Walzer, Just War and Iraq** Ronan O'Callaghan, 2015-10-08 In recent years questions of ethical responsibility and justice in war have become increasingly significant in international relations This focus has been

precipitated by United States U S led invasions in Afghanistan and Iraq In turn Western conceptions of ethical responsibility have been largely informed by human rights based understandings of morality This book directly addresses the question of what it means to act ethically in times of war by drawing upon first hand accounts of U S war fighting in Iraq during the 2003 invasion and occupation The book focuses upon the prominent rights based justification of war of Michael Walzer Through an in depth critical reading of Walzer s work this title demonstrates the broader problems implicit to human rights based justifications of war and elucidates an alternative account of ethical responsibility ethics as response Putting forward a compelling case for people to remain troubled and engaged with questions of ethical responsibility in war this work will be of great interest to students and scholars in a range of areas including international relations theory ethics and security studies

The Global Making of Policing Jana

Hönke, Markus-Michael Müller, 2016-08-12 This edited volume analyses the global making of security institutions and practices in our postcolonial world The volume will offer readers the opportunity to gain a deeper understanding of the global making of how security is thought of and practiced from US urban policing diaspora politics and transnational security professionals to policing encounters in Afghanistan Palestine Colombia or Haiti It critically examines and decentres conventional perspectives on security governance and policing In doing so the book offers a fresh analytical approach moving beyond dominant one sided perspectives on the transnational character of security governance which suggest a diffusion of models and practices from a Western centre to the rest of the globe Such perspectives omit much of the experimenting and

learning going on in the post colony as well as the active agency and participation of seemingly subaltern actors in producing and co constituting what is conventionally thought of as Western policing practice knowledge and institutions This is the first book that studies the truly global making of security institutions and practices from a postcolonial perspective by bringing together highly innovative in depth empirical cases studies from across the globe It will be of particular interest to students and scholars interested in International Relations and Global Studies critical Security Studies Criminology and Postcolonial Studies

Cultural Politics of Targeted Killing Kyle Grayson, 2016-07-15 The deployment of remotely piloted air platforms RPAs or drones has become a defining feature of contemporary counter insurgency operations Scholarly analysis and public debate has primarily focused on two issues the legality of targeted killing and whether the practice is effective at disrupting insurgency networks and the intensive media and activist scrutiny of the policy processes through which targeted killing decisions have been made While contributing to these ongoing discussions this book aims to determine how targeted killing has become possible in contemporary counter insurgency operations undertaken by liberal regimes Each chapter is oriented around a problematisation that has shaped the cultural politics of the targeted killing assemblage Grayson argues that in order to understand how specific forms of violence become prevalent it is important to determine how problematisations that enable them are shaped by a politico cultural system in which culture operates in conjunction with technological economic governmental and geostrategic elements The book also demonstrates that the actors involved what they may be attempting to achieve through the deployment of this form of violence how they attempt to achieve it and where they attempt to achieve it are also shaped by culture The book demonstrates how the current social relations prevalent in liberal societies contain the potential for targeted killing as a normal rather than extraordinary practice It will be of great use for academic specialists and graduate students in international studies geography sociology cultural studies and legal studies

The Biopolitics of Lifestyle Christopher Mayes, 2015-12-22 A growing sense of urgency over obesity at the national and international level has led to a proliferation of medical and non medical interventions into the daily lives of individuals and populations This work focuses on the biopolitical use of lifestyle to govern individual choice and secure population health from the threat of obesity The characterization of obesity as a threat to society caused by the cumulative effect of individual lifestyles has led to the politicization of daily choices habits and practices as potential threats This book critically examines these unquestioned assumptions about obesity and lifestyle and their relation to wider debates surrounding neoliberal governmentality biopolitical regulation of populations discipline of bodies and the possibility of community resistance The rationale for this book follows Michel Foucault's approach of problematization addressing the way lifestyle is problematized as a biopolitical domain in neoliberal societies Mayes argues that in response to the threat of obesity lifestyle has emerged as a network of disparate knowledges relations and practices through which individuals are governed toward the security of the population's health Although a central focus is government health campaigns this volume demonstrates that the network of

lifestyle emanates from a variety of overlapping domains and disciplines including public health clinical medicine media entertainment school programs advertising sociology and ethics This book offers a timely critique of the continued interventions into the lives of individuals and communities by government agencies private industries medical and non medical experts in the name of health and population security and will be of interests to students and scholars of critical international relations theory health and bioethics and governmentality studies China's International Relations and Harmonious World Astrid Nordin,2016-04-28 As scholars and publics look for alternatives to what is understood as a violent Western world order many claim that China can provide such an alternative through the Chinese dream of a harmonious world This book takes this claim seriously and examines its effects by tracing the notion across several contexts the policy documents and speeches that launched harmony as an official term under previous president Hu Jintao the academic literatures that asked what a harmonious world might look like the propaganda and mega events that aimed to illustrate it the online spoofing culture that is used to criticise and avoid harmonization and the incorporation of harmony into current president Xi Jinping s Chinese dream This book finds contemporary Chinese society and international relations saturated with harmony Yet rather than offering an alternative to problems in Western thought it counter intuitively argues that harmony has not taken place is not taking place and will not take place The argument unfolds as a contribution to wider debates on time space and multiplicity in world politics Offering analysis of the important but understudied concept of harmony Nordin provides new and creative insights into wider contemporary issues in Chinese politics society and scholarship The book also suggests a creative and novel methodology for studying foreign policy concepts more broadly drawing on critical thinkers in innovative ways and in a new empirical context It will be of interest to students and scholars of IR Chinese foreign and security policy and IR theory Negotiating Corruption Laura Routley,2015-12-14 Negotiating Corruption demands that we think again about corruption in Africa It problematises the framing of African corruption as a phenomenon that emerges from a clash between two sets of norms Moreover it highlights the colonial legacies of this frame which situates African corruption within continually recurring debates about the political inclusion or banishment of others NGOs are characterised as intermediaries between the local and the international and between the state and the population In both of these roles they are understood to reform governance by bringing about changes in culture and instituting bureaucratic norms They have therefore been seen as part of the apparatus of a global liberal governmentality This book complicates this portrayal and highlights the ambiguous role of liberal governmentality through an exploration of the grey practices of the NGOs studied These practices are grey as they do not fit the pattern of virtuous NGOs holding the state to account described in development policy yet at the same time they ensure that the state produces the outcomes that a fully functioning state ought to This enacting of oppositional and antagonistic elements is further unpacked in conversation with Homi Bhabha s concepts of negotiation and hybridity Negotiating Corruption draws attention to both the limitations of

current explanations of corruption in Africa and the problematic way in which they are framed The book's detailed engagement with understandings of corruption within policy and academic debates will make it a useful resource for undergraduate teaching It will also be of keen interest to researchers academics and postgraduate students who engage with the issues of corruption NGOs civil society African politics governmentality and hybridity **Political Aesthetics** Arundhati Virmani, 2015-09-07 *Political Aesthetics* highlights the complex and ambiguous connections of aesthetics with social cultural and political experiences in contemporary societies If today aesthetics seems a rather overused term mixing a variety of historical realities and complex personal states of being its relevance as a connecting agent between individual state and society is stronger than ever The actual context of political and economic crisis generates new relations between official imposed aesthetics and the resistance and critiques they trigger Considered beyond the poles of power and protest the book examines how traditional or innovative artistic practices may acquire unexpected capacities of subversion It nourishes the current debate around the new political stakes of aesthetics as an inviolable right of ordinary citizens an essential element of empowerment and agency in a democratic every day It will be of interest to students and scholars of international relations political culture and political aesthetics as well as critical sociology and history It will also be useful for some broad courses in media studies cultural studies and sociology *Jacques Lacan* Slavoj Žižek, 2003 Jacques Lacan 1901-1980 is undoubtedly the central figure of psychoanalysis in the second half of the 20th century The texts selected here present the entire scope of the Lacan debate *Time, Temporality and Violence in International Relations* Anna Agathangelou, Kyle Killian, 2016-03-02 Time transforms the way we see world politics and insinuates itself into the ways we act In this groundbreaking volume Agathangelou and Killian bring together scholars from a range of disciplines to tackle time and temporality in international relations The authors critical theorists artists and poets theorize and speak from the vantage point of the anticolonial postcolonial and decolonial event They investigate an array of experiences and structures of violence oppression neocolonization slavery war poverty and exploitation focusing on the tensions produced by histories of slavery and colonization and disrupting dominant modes of how we understand present times This edited volume takes IR in a new direction defatalizing the ways in which we think about dominant narratives of violence peace and liberation and renewing what it means to decolonize today's world It challenges us to confront violence and suffering and articulates another way to think the world arguing for an understanding of the present as a vulnerable space through which radically different temporal experiences appear And it calls for a disruption of the everyday politics of expediency in the guise of neoliberalism and security This volume reorients the ethical and political assumptions that affectively imaginatively and practically captivate us simultaneously unsettling the familiar but dubious promises of a modernity that decimates political life Re animating an international political the authors evoke people's struggles and movements that are neither about redemption nor erasure but a suspension of time for radical new beginnings *Politics and Suicide* Nicholas Michelsen, 2015-10-08 Politics and

Suicide argues that whilst the historical lineage of suicidal politics is recognised the fundamental significance of autodestruction to the political remains under examined It contends that practices like suicide bombing do not simply embody a strange or abnormal suicidal articulation of the political but rather that the existence of suicidal politics tells us something fundamental about the political as such and thinking about political violence more broadly Recent world events have emphatically shown our need for tools with which to develop better understandings of the politics of suicide Through the exploration of several arresting case studies including the Kamikaze bombers of World War Two Jan Palach s self immolation in 1969 Cold War nuclear deterrence and the suicide terrorist attacks of 9 11 Michelsen asks how we might talk of a political suicide in any of these contexts The book charts how political processes go suicidal and asks how we might still consider them to be political in such a case It investigates how suicide can function as politics A strong contribution to the fields of philosophy and international relations theory this work will also be of interest to students and scholars of political theory and terrorism political violence
