Professional and Ethical Consideration for Early Childhood Leaders Cunningham, Denise D.,2020-06-19 Early childhood educators are keenly aware of the importance of a child s transition to real school This transition is occurring

earlier in a child's life now that school districts nationwide are moving to pre kindergarten experiences for 3 and 4 year olds. Annually more than one million children attend public school pre k programs overseen by elementary school principals who although veteran educational leaders were not trained to oversee these programs. Although pre k classrooms are rapidly growing and deserve special attention school leaders must be reminded that early childhood means more than pre kindergarten it extends through third grade. School leadership needs to understand the principles of early childhood education to effectively support all children age three to grade three. Professional and Ethical Consideration for Early Childhood Leaders is a collection of innovative research that crafts an overall understanding of the importance of early childhood leadership in today's schools. The book employs strategies to improve support for children in early childhood years, examines the different roles of early childhood leadership, analyzes best practices for implementation in early childhood contexts and explores improvements for leadership preparation for schools with pre k through third grade children. While highlighting a wide range of topics including advocacy, cultural responses and professional development, this publication is ideally designed for educators, administrators, principals, early childhood development teachers, daycare instructors, curriculum developers, advocates, researchers, academicians and students.

Goals, Goal Structures, and Patterns of Adaptive Learning

Carol Midgley, 2014-04-08. Achievement goal theory has emerged as one of the preeminent approaches to motivation. Goals, Goal Structures, and Patterns of Adaptive Learning presents the findings of a large scale longitudinal study that use goal theory as the lens through which to examine the relation among achievement goals, the learning context and students and teachers patterns of cognition, affect and behavior. These results are integrated within the larger literature on goal theory providing an overview of the research that has been conducted as well as suggestions that goal theory researchers might want to consider. Written by scholars who are well known in the field, this book provides a comprehensive summary of research related to achievement goal theory, one of the preeminent approaches to motivation today. It presents a detailed overview of research conducted in conjunction with the Patterns of Adaptive Learning Study, a decade long multi faceted study employing both quantitative and qualitative methods. A description of the development, reliability and validity of the Patterns of Adaptive Learning Scales is included. These scales are being used by many researchers using achievement goal theory in this country and internationally. It includes important information about the relevancy of achievement goal theory for an understanding of avoidance behaviors in schools, describes the relevancy of achievement goal theory for children who are disaffected from school and schooling and points to the gaps in research on achievement goal theory and provides guidance for future research in the field.

Informal STEM Learning at Home and in Community Spaces Bradley Morris, Brenna Hassinger-Das, Rachael Todaro, Jennifer DeWitt, 2024-03-22. Children in Western countries spend only about

20% of their waking time in school Meltzoff et al 2009 Leveraging the 80% of time that they spend outside of school can provide children with opportunities to engage in meaningful authentic STEM learning experiences with family members other caregivers and children STEM learning and readiness go beyond acquiring content knowledge to include interest engagement and motivation for STEM learning as well as the formation of a STEM identity To date there has been a dearth of research focusing on children s informal STEM experiences when compared to formal school based STEM learning experiences This Research Topic focuses attention on the authentic everyday experiences of children and how these experiences provide opportunities for STEM learning engagement and identity In addition these papers will explore how these everyday experiences can be leveraged and augmented to promote STEM learning and engagement through culturally relevant design and implementation
