*Matilda's World and the Real One* Sener Saltürk,2012-11-06 Essay from the year 2005 in the subject English Language and Literature Studies Literature grade 1 0 University of Dortmund Anglistisches Institut language English abstract Though children s books not infrequently take on the subject of children suffering under their own weaknesses the major difference between the world in these books and the real world is that in the latter they cannot define the rules nor can they rule In a fictional world however they can become heroes and masters of their own fate or even anything and anyone Here children can become free in an existential sense of the word In order to reach this freedom the child must cope with a number of different and quite difficult and dangerous tasks But what sort of world is it actually An aforementioned ersatz world a

parallel world or just a copy of the real world they are desperately striving to escape from In any case this fictitious worlds do not only include the things in it but quite frequently comp above mentioned Harry Potter Huck Finn etc focus strongly on their protagonists a fictional child that is in many ways like any other child save in one thing he or she is capable of doing things the others cannot thus being enabled to change the status quo of things or of the world This status quo i e conflicts children generally encounter is depicted in ironic quite often exaggerated ways that the child heroes have to face and overcome Of course in order to accomplish this it takes an extraordinary child and it is no coincidence that many a successful children s book either carries its protagonist s s name in the title or is actually named after them As is Roald Dahl s Matilda As for the world Matilda lives in it contains many elements of different genres such as fairy tales etc that I will pay my closer attention to hoping to yield some information on what these worlds include and what makes them so attractive to children and approach to the fantasies and the fantasy world of children
