Resources in Education, 1983 *Mental Measurements Yearbook of the School of Education, Rutgers University*, 1998 Reading

Research Quarterly ,1974 Louisiana Register ,1999 **The Iowa Testing Programs** Julia J. Peterson,1983

Embedding Questions National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee on Embedding Common Test Items in State and District Assessments, 1999-11-17 Policy makers are caught between two powerful forces in relation to testing in America's schools. One is increased interest on the part of educators reinforced by federal requirements in developing tests that accurately reflect local educational standards and goals. The other is a strong push to gather information about the performance of students and schools relative to national and international standards and norms. The difficulty of achieving these two goals simultaneously is exacerbated by both the long standing American tradition of local control of education and the growing public sentiment that students already take enough tests. Finding a solution to this dilemma has been the focus of numerous debates surrounding the Voluntary National Tests proposed by President Clinton in his 1997 State of the Union address. It was also the topic of a congressionally mandated 1998 National Research Council report *Uncommon Measures: Equivalence and Linkage Among Educational Tests* and was touched upon in a U.S. General Accounting Office report *Student Testing Issues Related to Voluntary National Mathematics and Reading Tests*. More recently Congress asked the National Research Council to determine the technical feasibility, validity, and reliability of embedding test items from the National Assessment of Educational Progress or other tests in state and district assessments in 4th grade reading and 8th grade mathematics for the purpose of developing a valid measure of student achievement within states and districts and in terms of national performance standards or scales. This report is the response to that congressional mandate.
