Jacob Van Ruisdael Windmills And Water Mills:

Jacob Van Ruisdael Seymour Slive, 2011-06-07 Windmills were ubiquitous in seventeenth century Holland and they remain the best known symbol of the Dutch landscape Jacob van Ruisdael first depicted them as a precocious teenager and continued to represent all types in various settings until his very last years Water mills in contrast were scarce in the new Dutch Republic found mainly in the eastern provinces particularly near the border with Germany Ruisdael discovered them in the early 1650s and was the first artist to make water mills the principal subject of a landscape His most celebrated painting Windmill at Wijk bij Duurstede at the Rijksmuseum and the J Paul Getty Museum s Two Undershot Water Mills with an Open Sluice are the centerpieces of this overview of the artist s depictions of windmills and water mills Both depended upon forces of nature for their operation but their use in the Netherlands and their place in seventeenth century Dutch art differed considerably This book examines their role in Holland and introduces readers to the pleasure of studying Ruisdael s images of them a joy conveyed by the English landscapist John Constable in a letter written to his dearest friend after seeing a Ruisdael painting of a water mill in a London shop It haunts my mind and clings to my heart **Jacob Van Ruisdael :**

Sutton, 2015-06-05 In Capitalism and Cartography in the Dutch Golden Age Elizabeth A Sutton explores the fascinating but previously neglected history of corporate cartography during the Dutch Golden Age from ca 1600 to 1650 She examines how maps were used as propaganda tools for the Dutch West India Company in order to encourage the commodification of land and an overall capitalist agenda Building her exploration around the central figure of Claes Jansz Vischer an Amsterdam based publisher closely tied to the Dutch West India Company Sutton shows how printed maps of Dutch Atlantic territories helped rationalize the Dutch Republic s global expansion Maps of land reclamation projects in the Netherlands as well as the Dutch territories of New Netherland now New York and New Holland Dutch Brazil reveal

how print media were used both to increase investment and to project a common narrative of national unity Maps of this era showed those boundaries commodities and topographical details that publishers and the Dutch West India Company merchants and governing Dutch elite deemed significant to their agenda In the process Sutton argues they perpetuated and promoted modern state capitalism

Jacob van Ruisdael's Ecological Landscapes Catherine Levesque, 2025-10-01 This book examines Jacob van Ruisdael's treatment of five subjects dunes grainfields ruins rushing water and woodlands that recur throughout his career The paintings though fictive show close attention to the complexities of particular environments that can be fruitfully considered ecological The pattern of Ruisdael's reworking each environment and associated phenomena shows him as laboring over these themes His work across media conveys something of his demanding and methodical procedure as he sought to achieve pictorially the force temporality vitality and motion of nature Ruisdael's paintings decenter humankind within familiar yet reimagined landscapes His ability to depict nature's dynamism provided an alternative vision at a foundational moment when landscape increasingly manipulated and controlled was most often considered property and investment His focus on the techniques and processes of his own work to render these entities was essential to his ecological perspective and invites a similar recognition from an attentive viewer

Turner Franny Moyle, 2016-10-25 The life of one of Western art's most admired and misunderstood painters J M W Turner is one of the most important figures in Western art and his visionary work paved the way for a revolution in landscape painting Over the course of his lifetime Turner strove to liberate painting from an antiquated system of patronage Bringing a new level of expression and color to his canvases he paved the way for the modern artist Turner was very much a man of his changing era In his lifetime he saw Britain ravaged by Napoleonic wars revived by the Industrial Revolution and embarked upon a new moment of Imperial glory with the ascendancy of Queen Victoria His own life embodied astonishing transformation Born the son of a barber in Covent Garden he was buried amid pomp and ceremony in St Paul's Cathedral Turner was accepted into the prestigious Royal Academy at the height of the French Revolution when a climate of fear dominated Britain Unable to travel abroad he explored at home reimagining the landscape to create some of the most iconic scenes of his country But his work always had a profound human element When a moment of peace allowed travel into Europe Turner was one of the first artists to capture the beauty of the Alps to revive Venice as a subject and to follow in Byron's footsteps through the Rhine country While he was commercially successful for most of his career Turner's personal life remained fraught His mother suffered from mental illness and was committed to Bedlam Turner never married but had several long term mistresses and illegitimate daughters His erotic drawings were numerous but were covered up by prurient Victorians after his death Turner's late impressionistic work was held up by his

Victorian detractors as example of a creeping madness Affection for the artist s work soured John Ruskin the greatest of all 19th century art critics did what he could to rescue Turner s reputation but Turner s very last works confounded even his greatest defender TURNER humanizes this surprising genius while placing him in his fascinating historical context Franny Moyle brilliantly tells the story of the man to give us an astonishing portrait of the artist and a vivid evocation of Britain and Europe in flux

Calling Mr. King Ronald De Feo,2011-08-30 Long considered cool distant and absolutely reliable an American born hit man working throughout Europe grows increasingly distracted and begins to develop an unexpected passion for architecture and art while engaged in his deadly profession Although he welcomes this energizing break from his routine he comes to realize that it is an unwise trajectory for a man in his business particularly when he is sent on the most difficult job of his career Set in London Paris New York and Barcelona Calling Mr King is at once a colorful suspense tale laced with dark humor and a psychological self portrait of a character who is attempting against the odds to become

for the pastoral middle ground a traditionally productive landscape By focusing an art historical lens on pre industrial productive systems and the effects of the Industrial Revolution on the pastoral landscape tradition we can gain a better understanding of how to weave new approaches to productive infrastructure systems such as power generation water filtration and food production into our contemporary landscapes With rising demand for clean energy clean water and locally grown food this study offers a historical perspective on how such systems can be integrated into our suburban and urban areas Vestigial elements of the pastoral tradition have long held aesthetic sway in our suburbs cities and national parks both in Britain and America Now as new energy and water related projects encroach on these spaces remnants of the pastoral play a crucial role in convincing neighborhood residents municipal leaders and energy companies or water authorities of the benefits of a neighboring infrastructure This book investigates the history of that tradition and highlights the advantages it brings as we re imagine infrastructure in the twenty first century
