Grade 3 Report card comments –

Math (Term 1) Sample

Girls

XXXXXXXXXX has displayed a very good understanding of all the math concepts touched upon this year. She effectively uses mathematical vocabulary to express her understanding and is able to compute with ease, unknown variables in a word problem. She knows her times tables quite well and is able to attempt sums with all the four operations with relative ease. Her speed and accuracy became better by the day and she loved working hands-on with fractions, grids, and calculation of the perimeter of various objects in class. She is also developing good mental math strategies to recall and use quickly and accurately concepts relating to math fact families. She has great potential in advancing her mathematical skill and would benefit from regular practice and making mathematical connections with her day to day activities.

Boys

XXXXXXXXXX has an excellent level of competence when working with numbers. He is quick with his mental math calculations and has a clear understanding of the place value system, rounding off and the operations of addition and subtraction. He expresses and organizes mathematical thinking with considerable clarity while penning down story sums using math vocabulary. His reflections on why 72 is rounded off to 70 were very well done. He challenges himself with math work and accomplishes his target too. In his zeal to finish his work quickly, XXXXXXXXXXXX occasionally makes silly mistakes despite of knowing the concepts well. He needs to revise his work before submitting it to the teacher.
