Satan in America W. Scott Poole,2009-11-16 Satan in America tells the story of America s complicated relationship with the devil New light evangelists of the eighteenth century enslaved African Americans demagogic politicians and modern American film makers have used the devil to damn their enemies explain the nature of evil and injustice mount social crusades construct a national identity and express anxiety about matters as diverse as the threat of war to the dangers of deviant sexuality The idea of the monstrous and the bizarre providing cultural metaphors that interact with historical change is not new Poole takes a new tack by examining this idea in conjunction with the concerns of American religious history The book shows that both the range and the scope of American religiousness made theological evil an especially potent symbol Satan appears repeatedly on the political religious and cultural landscape of the United States a shadow self to the sunny image of American progress and idealism

Contemporary Reconfigurations of American Literary Classics Betina Entzminger,2013 The number and popularity of novels that have overtly reconfigured aspects of classic American texts suggests a curious trend for both readers and writers an impulse to retell and reread books that have come to define American culture This book argues that by revising canonical American literature contemporary American writers are re writing an American myth of origins creating one that corresponds to the contemporary writer s understanding of self and society Informed by cognitive psychology evolutionary literary criticism and poststructuralism Entzminger reads texts by canonical authors Poe Hawthorne Melville Alcott Twain Chopin and Faulkner and by the contemporary writers that respond to them In highlighting the construction and cognitive function of narrative in their own and in their antecedent texts contemporary writers highlight the fact that such use of narrative is universal and essential to human beings This book suggests that by revising the classic texts that compose our cultural narrative contemporary writers mirror the way human individuals consistently revisit and refigure the past through language via self narration in order to manage and understand experience

Scenes of Nature, Signs of Men Tony Tanner,1989-08-25 This book is about the relationship of the American writer to his land and language to the scene and the sign to the natural landscape and the inscriptions imposed upon it by men Among the questions considered in the first section of the book are how does American Romantic writing differ from European what are the peculiar problems faced by the American artist and what roles does he adopt to tackle them what kind of writing results when authors as different as Henry Adams and Mark Twain lament the vanishing of an earlier America or when Adams and Henry James review their complex relationship to their homeland or when W D Howells and Stephen Crane seek to define their themes in a specifically American setting The second section of the book examines similar concerns in a number of contemporary writers notably Thomas Pynchon John Barth Donald Barthelme John DeLillo and William Gass

Indivisible Joel Richard Paul,2022-10-25 The story of how Daniel

Webster popularized the ideals of American nationalism that helped forge our nation's identity and inspire Abraham Lincoln to preserve the Union. When the United States was founded in 1776 its citizens didn't think of themselves as Americans. They were New Yorkers or Virginians or Pennsylvanians. It was decades later that the seeds of American nationalism, identifying with one's own nation and supporting its broader interests, began to take root. But what kind of nationalism should Americans embrace? The state-focused and racist nationalism of Thomas Jefferson and Andrew Jackson. Or the belief that the U.S. Constitution made all Americans one nation indivisible, which Daniel Webster and others espoused. In *Indivisible*, historian and law professor Joel Richard Paul tells the fascinating story of how Webster, a young New Hampshire attorney turned politician, rose to national prominence through his powerful oratory and unwavering belief in the United States and captured the national imagination. In his speeches on the floors of the House and Senate, in court, and as Secretary of State, Webster argued that the Constitution was not a compact made by states but an expression of the will of all Americans. As the greatest orator of his age, Webster saw his speeches and writings published widely, and his stirring rhetoric convinced Americans to see themselves differently as a nation bound together by a government of laws, not parochial interests. As these ideas took root, they influenced future leaders among them Abraham Lincoln, who drew on them to hold the nation together during the Civil War. As he did in *Without Precedent* and *Unlikely Allies*, Joel Richard Paul has written in *Indivisible* both a compelling history and a fascinating account of one of the founders of our national perspective. *Hawthorne's Works: Twice-told tales* Nathaniel Hawthorne, 1876 [Hawthorne's Works: Passages from the English note-books](#) Nathaniel Hawthorne, 1876

Hawthorne Melville and the American Character John McWilliams, 1986-02-28 This book considers the portrayal of the American national character in the writings of Nathaniel Hawthorne and Herman Melville. It examines Hawthorne's abiding concern with the development of New England from colony to province to republic and analyses Melville's changing evocation of the new American and the difficulties he faced in sustaining his heady nationalistic faith. [Hawthorne, Sculpture, and the Question of American Art](#) Deanna Fernie, 2016-12-05 Deanna Fernie analyzes the significance of sculpture in Hawthorne's fiction through the recurring motif of the fragment in its double guise as ruin and project. Her book casts new light on Hawthorne's memorable ruined and unfinished images: from the rough-hewn figurehead of Drowne's Wooden Image (1844) to the tattered letter A in the unfinished loft of the Custom House in *The Scarlet Letter* (1850) and the unfinished bust of Donatello in *The Marble Faun* (1860). Fernie shows how the tension between the formed and unformed enabled Hawthorne to interrogate the origins and the distinctive possibilities of art in America in relation to established European models. At the same time, she suggests that sculpture challenged and provoked Hawthorne's shaping of his own, specifically literary, art, stimulating him to develop its capacities for expressing irresolution and change. Fernie establishes the intellectual contexts for her study through a discussion of sculpture and fragmentary form as revealed in American, British, and Continental thought. Her book will be an important text not only for American literature scholars but also for anyone interested in British

and Continental Romanticism and the intersections of art and literature **America's Hive of Honey** David Kirby,1980

Salem Dane Anthony Morrison,Nancy Lusignan Schultz,2015-01-16 How is a sense of place created imagined and reinterpreted over time That is the intriguing question addressed in this comprehensive look at the 400 year history of Salem Massachusetts and the experiences of fourteen generations of people who lived in a place mythologized in the public imagination by the horrific witch trials and executions of 1692 and 1693 But from its settlement in 1626 to the present Salem was and is much more than this In this volume contributors from a variety of fields examine Salem s multiple urban identities frontier outpost of European civilization cosmopolitan seaport gateway to the Far East refuge for religious diversity center for education and of course Witch City tourist attraction

Outing ,1907 **Confounding Images** Susan S. Williams,2016-11-11 Susan Williams recovers the literary and cultural significance of early photography in an important rereading of American fiction in the decades preceding the Civil War The rise of photography occurred simultaneously with the rapid expansion of magazine publication in America and Williams analyzes the particular role that periodicals such as Godey s Lady s Book Burton s Gentleman s Magazine and Atkinson s Casket played in defining how photography was received At the center of the book are readings of a stunning array of fiction by forgotten and canonical writers alike including Edgar Allan Poe Louisa May Alcott and Sarah Hale as well as extended interpretations of Nathaniel Hawthorne s House of the Seven Gables and The Marble Faun and Herman Melville s Pierre In a concluding section Williams offers a view of the fictional portrait in the later nineteenth century when the proliferation of illustrated books once again transformed the relation between word and image in American culture The Barbaric Triumph Don Herron,2004-06-01 The Barbaric

Triumph examines all aspects of the life and work of Robert E Howard the originator of the sword sorcery fantasy genre and the creator of Conan the Barbarian Featured are essays by Leo Grin Edwrad A Waterman Charles Hoffman Paul Spencer Mark Finn Steven R Trout Lauric Guillaud Scott Connors George Knight Don Herron and more From the phantoms of Hate simmering beneath Howard s blood drenched prose to Howard s lifelong interest in philosophy from Howard s visionary use of the American Frontier Myth to his tales of boxing The Barbaric Triumph builds on the pioneering research of Heron s previous book on Howard The Dark Barbarian and takes it to new levels *The Venice Myth* David Barnes,2015-10-06 Venice holds a unique place in literary and cultural history Barnes looks at the themes of war occupation resistance and fascism to see how the political background has affected the literary works that have come out of this great city He focuses on key British and American writers including Byron Ruskin Pound and Eliot
