John Harold Haynes, Ian M. Coomber

Haynes 2015 Eclipse Repair Manual:

Big Guns in the Atlantic Angus Konstam, 2021-08-19 At the outbreak of World War II the German Kriegsmarine still had a relatively small U boat arm To reach Britain s convoy routes in the North Atlantic these boats had to pass around the top of the British Isles a long and dangerous voyage to their hunting grounds Germany s larger surface warships were much better suited to this kind of long range operation So during late 1939 the armoured cruiser Deutschland and later the battlecruisers Scharnhorst and Gneisenau were used as commerce raiders to strike at Allied convoys in the North Atlantic These sorties met with mixed results but for Germany s naval high command they showed that this kind of operation had potential Then the fall of France Denmark and Norway in early 1940 dramatically altered the strategic situation The Atlantic was now far easier to reach and to escape from During 1940 further moderately successful sorties were made by the cruisers Admiral Scheer and Admiral Hipper By the end of the year with British mercantile losses mounting to surface raiders and U Boats plans were developed for a much larger raid first using both cruisers and then the two battlecruisers The climax of this was Operation Berlin the Kriegsmarine s largest and most wide ranging North Atlantic sortie so far Scharnhorst and Gneisenau remained at sea for two months destroying 22 Allied merchant ships and severely disrupting Britain s lifeline convoys So when the operation ended the German commander Admiral L tjens was ordered to repeat his success this time with the brand new battleship Bismarck The rest as they say is history These earlier Atlantic raids demonstrated that German surface ships could be highly effective commerce raiders For those willing to see though they also demonstrated just how risky this strategy could be Covering a fascinating and detailed analysis of the Kriegsmarine s Atlantic raids between 1939 and 1941 this book will appeal to readers interested in World War II and in particular in Germany s naval operations **Royal Navy Home**

Fleet 1939-41 Angus Konstam, 2024-03-28 Packed with illustrations this is a new history and analysis of how the Royal Navy s most important fleet operated and fought the German Navy in the crucial first years of World War II Throughout its history the Royal Navy s most powerful fleet has been the one guarding home waters In this book naval historian Angus Konstam explores the fighting power the roles and the battles of the Home Fleet in the crucial first years of World War II when it was Britain s most powerful fighting force anchored in the northern bastion of Scapa Flow He explains the complex responsibilities of the fleet charged simultaneously with preventing the powerful German Navy from breaking out into the Atlantic preparing to challenge any cross Channel invasion force and attacking German naval operations in the North Sea Home Fleet actions included the loss of HMS Hood the sinking of the Bismarck and countering the invasion of Norway Germany s biggest amphibious operation of the war Packed with striking new artwork and 3D diagrams and maps this book offers a detailed portrait of the Home Fleet during these most crucial years of the war from the capabilities of the warships to logistics and intelligence gathering to how the fleet was organized and commanded and how and why it fought as it did

British Battleship vs German Battleship Angus Konstam, 2020-12-24 At the outbreak of World War II the four key Capital

German ships comprised the Bismarck Tirpitz Scharnhorst and Gneisenau Their primary threats where the Royal Navy s King George V class battleships the most modern British battleships in commission during World War II and some of the Navy s most powerful vessels Five ships of this class were built HMS King George V Prince of Wales Duke of York Howe late 1942 and Anson late 1942 The powerful vessels in this class would clash with the pride of the Kriegsmarine in two major engagements first during the Battle of the Denmark Strait and subsequent pursuit of the Bismarck between 24 and 27 May 1941 and again at the Battle of the North Cape on 26 December 1943 Alongside the King George V class the Royal Navy s two ship Nelson class Nelson and Rodney comprised Britain s only other battleships built in the interwar years Both ships served extensively in the Atlantic Mediterranean and Indian oceans during the war but their moment of fame came when Rodney together with King George V chased down and bombarded the doomed Bismarck in May 1941 This superbly detailed addition to the Duel series compares and contrasts the design and development of these opposing capital ships and describes the epic clashes on the high seas that ended with the destruction of the Kriegsmarine s major naval assets
