organization is by functional group beginning with the simple alkanes and progressing to the more complex. Within the primary organization there is also an emphasis on explaining the fundamental mechanistic similarities of reactions. Through this approach memorization is minimized and understanding is maximized. This new edition represents a major revision. The text has been revised at the sentence level to further improve clarity and readability; many new examples and topics of biological relevance have been added and many new features have been introduced.

Catalogue Pharmaceutical Society of Great Britain, 1905 *Survival Handbook for the New Chemistry Instructor* Diane M. Bunce, Cinzia M. Muzzi, 2004

This book provides an overview of the issues facing new chemistry faculty in preparation for teaching. Serving as a reference to answer specific questions new chemistry faculty encounter, this book is comparable to sitting down with a colleague in the department and talking through some ideas or gaining some pointers on how to avoid common pitfalls. It is the one single place new chemistry faculty can go to find practical information on how to teach and how to prepare for teaching their first course. Chapters are written both by established experts in the field and by new professors within their first couple of years of teaching.
