Reviews An incredible book utterly riveting absolutely magical SP I really liked this book and thought it was a good read If you are someone that meditates I m sure you will also find it interesting It s not that long and not very expensive so for me it s like why not I m a big fan of self hypnosis as I used it to achieve a beautiful birth several years ago Since then I have been kind of doing my own thing meditating but this book really helped me expand my mental exercises It essentially gives a ton of different ways to explore your own psyche I find it to be a very helpful guide to self hypnosis The chapter on scary dreams tremendously helped me navigate this problem with my 5 year old daughter Now each night before bed she gets so excited to go to her personal Fantasyland where we often deal with the things that are troubling her in a safe and self empowered way For this reason alone it was worth it to me Also I m a lifelong student of astrology and I loved his combination of these two worlds astrological archetypes and deep meditation Good stuff AT This a fun book to read Noel s writing style is informative and flows nicely I have the Kindle version Buy it you ll like it MK Digs deep into the issues of life be it struggles or challenges noel not only explains the roots of inner dragons but also describes how to identify them Living with Dragons is an insightful and practical look at the negative thoughts and emotions that can impede our lives on a daily basis This book will not only

help you shed light on things you may have tried to hide but it will also guide you towards practical steps to slay your Dragons No matter what negativity fills your inner World Living with Dragons will help you move towards it face it head on and squash it C This work is a vital and necessary tool for anyone wishing to understand and confront their inner demons or dragons as Noel so aptly names them His prodigious experience as a clinical psychologist is clearly apparent here yet it is not couched in confusing medical terminology but instead with mythologies we all know and instructions on how to that are so very easy to read and to understand In fact he makes it hard not to want to attempt this journey inward and to meet those inner dragons that we all have somewhere within Herein he gives invaluable directions on ways in which to make this inward journey via trance and self hypnosis methods both safely and productively The examples he gives are not only fascinating but intensely engaging in every way This work is inspiring exciting and riveting and I strongly recommend it S **Button**

Meditations for Transformation Larry Moen,2011-05-01 At some point we all seek to transform our lives It may be a spiritual or physical transformation the desire for a new career or a change in relationship Whatever the challenge of your transformation this collection of guided meditations offers you many paths to facilitate that change improve the quality of your life move through your daily existence and tap into your higher self The higher self consists of an inner core of pure beauty which is a descendant of Divine Energy This beauty exists deep within and can be perceived as a hollow cylinder of vibration and light The desire to see causes the reflection and at that point loving light penetrates the perception of fearful darkness and transformation occurs by turning inside out or reversing Creative imagery is a tool that can change the inner knowledge and perceptions by allowing you to see the outside world from within first Transformation occurs during the changing of the guard or reality from Nothing to Something or Something to Nothing *Meditations for Transformation* provides wonderful alternative realities from a cross section of professionals including physicians psychologists healers teachers and authors who have found ways to help themselves and the people they love attain inner change and growth I was first introduced to guided imagery at a workshop called Healing Your Inner Child taught by Margot Escott My journey into healing and opening up to the love that is available to all of us inspired me to pursue many paths of personal growth such as self hypnosis Tai Chi yoga visualization chanting and other explorations While experiencing these avenues I found I was growing into a more calm serene person Also many athletes achieve peak performance in their particular sports through practicing meditative visualization Professional golfers and tennis players are among those who use these techniques to

improve their games Visualizing that you can successfully manage a situation helps you confront and master that situation Visualize yourself already accomplishing a goal and your mind and body assume you have Certain thoughts produce related emotions If you think sad thoughts you experience unhappiness If you think fearful thoughts you experience anxiety If you think joyful thoughts you experience happiness For example think about your kitchen close your eyes and imagine what the room looks like Next see if you can remember all the colors in your kitchen Now imagine taking a piece of lemon slicing it putting it into your mouth and taking a bite Did you start to salivate This is an example of intended thought into imagery You now see that you do have the ability to change your reality When you enter this new reality family you may discover your thoughts no longer control you but that you are able to control your thoughts The intent comes from center Just as a potter molds his clay you are capable of transforming yourself in any manner you choose You can change your programming You can develop greater self awareness and self love and realize your full potential as a Spiritual Light Being having a human experience It is my hope that you will become the person you were truly meant to be May you obtain inner peace love serenity and happiness for the good you accomplish by guiding yourself and others Good luck and happy images

The Power of Self LeNora Millen, 2012-01-18 The Power of Self once natural and intimate to man speaks of the internal flame burning with the intensity of a time when humankind embraced power with a force that speaks to God and nature It was natural for man to breathe the energy of the gods into the lungs as the evolving of thought manifested upon man's entire existence Also bestowed upon man was enlightenment which on occasion was re-ignited to conquer and consume darkness of thought In the midst of standing within the shadows of doubt and fear the light that resonated inward was set free upon the soil from which thought springs forth Within the vastness of the universe nature taunts man to reconnect to a forgotten power as the fluttering wings of the butterfly soaring above the winds of change is likened to the phoenix rising from the ashes only to emerge with renewed spirit and hope Whispers of generations past tap into the conscious of a people connected to all that is in the stillness of the moment they await another sign Foretelling of things to come within the skies the rainforest echoes the cries of the ancestor's warnings They communicate telepathically no words spoken the energy spoke for them instead Connecting with nature while giving homage to the trees firmly rooted within the earth's surface the spark within man began to dim the I am would venture deep within the psyche of man Why and how did man lose touch with the essence of such a powerful inner strength Is it possible to transform thinking to connect to the I am The Power of Self is not just a book about transforming and evolving this book is about intimacy with self far beyond merely knowing self which is key to becoming more aware and self-empowered
