

Universal Health Care Law

In view of the fact that it is the state's policy to protect and promote the right of all Filipinos to health and to instill health awareness among them, under the Universal Health Care Act, which was signed into law on Feb 20, 2019, all Filipinos are covered by national health insurance. The UHC Law of the Philippines provides the required health system reforms for the expansion of financial security and access to health care for all Filipinos. In order to enhance overall health system efficiency, this groundbreaking law adopts a whole-of-system, whole-of-government, whole-of-society, people-centered approach. It aims at the gradual realization of UHC in the country, ensuring that equal access to quality and affordable health care goods and services is guaranteed to all Filipinos and is secured against financial risk. Within six months of that date, the Philippine Health Insurance Corp. (PhilHealth), which administers the country's universal health care program, will issue implementation rules and regulations. Accordingly, there are highlights of the law that interests me namely;

- All Filipinos are automatically enrolled in the National Health Insurance Program of PhilHealth, and membership has been simplified. Participants are either direct contributors or indirect contributors.
- Members pay 2.75 percent of their wages, paid by the employer and employee, under the existing PhilHealth scheme, but payments will rise to 5 percent by 2025 to help offset the new law's costs. Late employer contributions are subject to 3% monthly compound interest. Employers also face fines for failing to comply with
- All Filipinos will have access, with primary care facilities a priority, to preventive, promotive, curative, rehabilitative and palliative care.
- All Filipinos have zero copayments guaranteed for basic/ward accommodations and will pay a fixed copayment in public hospitals for non-basic admissions. Coinsurance and copayments will be regulated
- The existing decentralized municipal health services will be merged into health systems which are provincial and city-wide.
- For health facilities, performance-based reward programs would be set up. To guide decision-making, Health Technology Evaluation and Health Impact Assessment will be used.
- Both public and private health care providers will be required to apply health and financial data and to report the prices of all health services and products offered.

There is a lack of effective government coordination and control in the Philippine market for medicinal drugs and its inefficiency has contributed to uniquely high drug prices. The UHC Law requires the establishment of a Council for Health Technology Assessment (HTA) to direct pharmaceutical procurement, which will
