

'Republicans Keep Saying the Quiet Part Out Loud': Pence Calls for Privatizing Social Security

"They want to cut and privatize Social Security and take away our young people's futures," said Democratic Rep. Pramila Jayapal.

Former Vice President Mike Pence, a possible 2024 presidential candidate, has voiced support for a social security privatization scheme that the George W. Bush administration unsuccessfully pushed nearly two decades ago.

In a closed-door event Thursday hosted by the National Association of Wholesaler Distributors, a corporate trade group, Pence said he believes that "the day could come when we can replace the New Deal with a better deal that finally give younger Americans the ability to take a portion of their social security withholdings and put that into a private savings account that the government could invest."

"There's a very simple bond that could generate 2% would give the average American twice what they're going to get back on their social security today. And it could save the government money doing it," Pence said, according to video footage obtained by the Democratic-aligned group American Bridge 21st Century.

Healthcare Will Us Politics Kill Our Opportunity:

The President's Health Care Reform Proposals United States. Congress. House. Committee on Ways and Means,1994

Healthcare Edmund L. Valentine,2012-07-01 Your healthcare personal finances and America s future will be positively or negatively affected by U S healthcare legislation and regulation Healthcare is a skyrocketing 6 trillion global opportunity that can revitalize the United States economy and put it on a long term growth path However politics is putting America s ability to capitalize on healthcare at risk Misinformation funded by well financed vested interests is changing the political debate causing political polarization fostering economic uncertainty and impeding our economic recovery Healthcare 1 presents the global healthcare opportunity 2 makes the argument of why U S healthcare if not fixed will destroy our middle class 3 outlines what is required to fix healthcare 4 discusses why the political dialog on U S healthcare is wrong and 5 presents the questions that should be addressed by President Obama Governor Romney our United States senators and congressmen and our state representatives before we vote for them the questions each of us should be asking of them The healthcare argument goes beyond our medical system it has education taxation and immigration implications If U S healthcare is not properly addressed the United States will continue its decline properly addressed U S healthcare will become a flourishing economic sector which will fuel economic prosperity create high paying jobs and raise our standard of living *The Future of Medicine and Health Care* Dr. Walter J. Urban,2019-06-17 Some doctors have died because they went against the powers that be in modern medicine I am not afraid The evolution of alternative health care will continue until it becomes mainstream with your help This book can help you stop suffering the symptoms of disease and actually save your life It will lead you to the truth about the limitations of doctors as well as their benefits Needless suffering and deaths happen due to inadequate practices regarding prescription drugs misdiagnoses and improper treatment Holistic health care teams are the future of medicine One professional does not have all the answers about the cause diagnosis and treatment of your condition Individual health care professionals tend to give patients the idea that they can cure disease The reality is that no doctor can do what the body does itself ONLY THE BODY HEALS ITSELF In order to do that your body needs the right tools This book will help point you in the right direction *America Is Now a Socialistic Country* John D. Rigazio,2010-08 The IRS must be replaced The IRS is not producing the revenues needed to grow our economy The fact that more poor and lower income Americans pay little or no taxes and the rich and big business have tax loopholes plus the growing number of Americans who don t even file any income taxes compiled with many tax cheaters it s little wonder why federal revenues are declining when they should be increasing We also have a growing underground economy in America as more and more Americans and illegals are dealing with cash only and not paying any income taxes This underground economy is at least 500 billion a year We must have a national consumption tax aka national volume added or national sales tax as of Jan 1 2011 We can make it 10 percent on everything Five percent of this national consumption tax goes to the federal government and five percent goes to

the states to pay for the unfunded mandates the federal government passes Also as of 2011 the IRS should cut IRS taxes in half and make them much more simple In a year or two if the national consumer tax increases federal and state revenues we can double it to 20 percent and nearly eliminate the IRS A national value added sales tax will let America receive revenues from goods sold in America by slave labor countries and eliminate the cash only underground economy Whereas I suggest that the states receive 50 percent of the revenue received by a national sales tax aka value added tax the states could collect and monitor this tax With the exception of two or three states with no sales tax they could implement and enforce this consumption tax with a few new employees We must financially help the states because a chain is only as strong as its weakest link Health care bill is not funded President Obama said This health care legislation will be the greatest legislation since Roosevelt passed the Social Security Act However unlike Social Security it is an unfunded mandate which exceeds the ability of big and small businesses to pay for It is a socialistic boondoggle incognito It is my opinion that big business and small business cannot afford to pay for health insurance for the many Americans whom they employ The health care bill will cause more unemployment in America

Congressional Record United States. Congress,2001 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Crisis in Health Care** United States.
