An Intervention and Assessment to Improve Information Literacy Davida Scharf, 2013 Purpose The goal of the study was to test an intervention using a brief essay as an instrument for evaluating higher order information literacy skills in college students while accounting for prior conditions such as socioeconomic status and prior academic achievement and identify other predictors of information literacy through an evaluation of student behavior and attitude Design Methods Approach An instructional intervention was evaluated using a brief essay as a pre and posttest of learning in a course in technical communication Multiple readers rated essays on five criteria to measure higher order skills Interrater reliability and internal consistency of the measures were tested Analyses of variance and covariance were used to measure academic gains and to partial out the effects of confounding variables Student behavior was measured by level of activity in the course management system and essay length Student attitude was measured through a content analysis of their reflective statements A control group of students who took the same course without the intervention but who did not take the pretest also took the posttest Findings 1 The method used for measuring information literacy was found to be reliable and valid 2 The use of the brief essay as a pre and posttest showed that the students in the treatment group achieved impressive gains in higher order skills associated with information literacy 3 The students in the treatment group significantly outperformed students in the control group with substantive effect sizes explaining results 4 Socioeconomic status had no significant impact on information literacy 5 Student use of online instructional materials had no significant impact on information literacy Originality Value A model of information literacy assessment in higher education was proposed to isolate important classes of variables affecting learning An experimental design using multivariate methods to account for the multiple influences of variables on information literacy allowed for the determination and partitioning of the influence of each variable and sets of variables This knowledge allows for efficient and systematic progress to be recorded where less productive variables can be dropped from the model and significant and important variables are kept in the model to increase the amount of variability explained in information literacy outcomes

Successful Strategies for Teaching

Undergraduate Research Marta Deyrup, Beth Bloom, 2013-09-11 Editors Marta Deyrup and Beth Bloom have brought together well known educators from the fields of library science communication composition and education to show you how to develop successful strategies for teaching undergraduates how to conduct basic research and write papers Chapters cover each step of the research process beginning appropriately with separate pieces from a librarian and from an academic on

how to construct good research assignments Following chapters cover establishing the research question assessing the research process information ethics and the protocols of research and using new modes and media to communicate research findings The book fully explores current theories on pedagogy and provides practical demonstrations of how library instruction can reinforce critical thinking and set the groundwork in place for life long learning Each chapter contains an extensive bibliography for further reading

Assessing for Learning Violet H. Harada, Joan M. Yoshina, 2010-10-21 In this book theory is blended with practical application to provide a concise up to date explanation of how school librarians can work with students and teachers to assess for learning in 21st century schools Coauthors Harada and Yoshina authored the first text that focused on learning assessment in a school library context In this revised and expanded version of *Assessing for Learning Librarians and Teachers as Partners* they continue to shed light on the issue of school librarians helping students to assess for learning The book begins with a brief discussion of national reform efforts and the importance of assessment for effective learning within this context The balance of the book provides numerous strategies and tools for involving students as well as library media specialists in assessment activities emphasizing the importance of students assessing for their own learning It also provides specific examples of how assessment can be incorporated into various library related learning activities All chapters in this second edition have been updated with additional information and three new chapters on assessing for critical thinking dispositions and tech related learning have been added

Higher Education Outcomes Assessment for the Twenty-First Century Peter Hernon, Robert E. Dugan, Candy Schwartz, 2013-05-09 This book discusses recent trends in outcomes assessment examines how state governments are reshaping the national discussion with higher education and explains how libraries must respond to these changes *Higher Education Outcomes Assessment for the Twenty first Century* focuses on recent developments in outcomes assessment especially from the perspectives of the federal government and state governments as well as foundations concerned about the state of higher education The authors identify the significant changes that these stakeholders call for information that academic librarians and anyone following outcomes assessment need to be aware of and interpret the discussions to identify implications for libraries Building upon the foundation of knowledge presented in the previous two *Libraries Unlimited Outcomes Assessment in Higher Education* titles this book provides readers with up to date coverage of topics such as the emerging metrics used to define student and institutional success the increased importance of accountability and the need to compare and assess the performance of programs and institutions rather than individual courses and the shift in prioritizing student outcomes over student learning outcomes The authors also spotlight the critical need for libraries to fit their role within the national discussion and suggest ways in which library managers and directors can play a role in redirecting the discussion to their benefit

A Disciplinary Blueprint for the Assessment of Information Literacy Dorothy Anne Warner, 2008-06-30 Have you ever worried that literature on library instruction deals more with methods of assessing student attitude than student learning If so you ll be glad to

know someone is doing something about it Eight unique disciplinary modules are presented each identifying a series of information literacy objectives developed in accordance with Bloom s Taxonomy of Cognitive Objectives A substantive curriculum map embedded within each module lists the sequence of courses required for the disciplinary major and the level at which the course is taught sophomore junior etc notes whether information literacy instruction is currently taught by the library for that particular course and delineates the specific information literacy learning objectives the students must master in order to fulfill the course assignments Collaborative responsibility for teaching the information literacy skills is also outlined with specific recommendations for ways the library can strengthen its support for the specific discipline In addition assessment methodologies are identified including scoring rubrics designed specifically for the disciplinary information literacy objectives An indispensable resource for academic librarians ready to take the leap from episodic reactive response to programmatic sequenced integration into the curriculum

Teaching and Collecting Technical Standards Chelsea Leachman, Erin M. Rowley, Margaret Phillips, Daniela Solomon, 2023-09-15 Technical standards are a vital source of information for providing guidelines during the design manufacture testing and use of whole products materials and components To prepare students especially engineering students for the workforce universities are increasing the use of standards within the curriculum Employers believe it is important for recent university graduates to be familiar with standards Despite the critical role standards play within academia and the workforce little information is available on the development of standards information literacy which includes the ability to understand the standardization process identify types of standards and locate evaluate and use standards effectively Libraries and librarians are a critical part of standards education and much of the discussion has been focused on the curation of standards within libraries However librarians also have substantial experience in developing and teaching standards information literacy curriculum With the need for universities to develop a workforce that is well educated on the use of standards librarians and course instructors can apply their experiences in information literacy toward teaching students the knowledge and skills regarding standards that they will need to be successful in their field This title

provides background information for librarians on technical standards as well as collection development best practices It also creates a model for librarians and course instructors to use when building a standards information literacy curriculum
