Ingush English Ingush Dictionary Joanna Nichols:

Ghalghaai-ingalsii, Ingalsii-ghalghaai Lughat Johanna Nichols, Ronald L. Sprouse, 2004 This bilingual dictionary is the very first of its kind and contains about 6 000 words of essential vocabulary for Ingush **Ingush Grammar** Johanna Nichols, 2011-03-15 Comprehensive reference grammar of Ingush a language of the Nakh branch of the Nakh Daghestanian or East Caucasian language family of the central Caucasus southern Russia Ingush is notable for its complex phonology prosody including minimal tone system complex morphology of both nouns and verbs clause chaining long distance reflexivization and extreme degree of syntactic ergativity Current Trends in Caucasian, East European, and Inner Asian Linguistics Dee Ann Holisky, Kevin Tuite, 2003-01-01 This volume is a collection of seventeen papers on languages of all three indigenous Caucasian families as well as other languages spoken in the territory of the former Soviet Union Several papers are concerned with diachronic questions either within individual families or at deeper time depths Some authors utilize their field data to address problems of general linguistic interest such as reflexivization A number of papers look at the evidence for contact induced change in multilingual areas Some of the most exciting contributions to the collection represent significant advances in the reconstruction of the prehistory of such understudied language families as Northeast Caucasian Tungusic and the baffling isolate Ket This book will be of interest not only to specialists in the indigenous languages of the former USSR but also to historical and synchronic linguists seeking to familiarize themselves with the fascinating typologically diverse languages from the interior of the Eurasian continent Dee Ann Holisky is Professor of English and Linguistics and Associate Dean for Academic Programs of the College of Arts Montr al ditions Fides 2003 *Intensive language contact in the Caucasus* Jesse Wichers Schreur, 2025-05-20 Tsova Tush is an East Caucasian language spoken in one single village in Eastern Georgia by approximately 300 speakers Since its early description scholars have been intrigued by the high degree of linguistic influence from the Georgian language This book has a threefold goal 1 To contribute to the overall description of the Tsova Tush language by filling gaps in the previous literature in absence of a reference grammar 2 To contrast Tsova Tush constructions with functionally equivalent constructions in Chechen and Ingush its closest relatives and with Georgian the language of wider communication which all Tsova Tush speakers speak as a second language in order to form hypotheses concerning which Tsova Tush construction is inherited and which has arisen under influence of Georgian 3 To provide the most probable diachronic scenario of language contact by looking at historical Tsova Tush language data as well as at its historical sociolinguistics This book provides a basic description of Tsova Tush in particular in the domain of spatial cases which exhibit a two slot system similar to Daghestanian languages TAME categories indentifying a Iamitive and a Past Subjunctive developing indirect evidential semantics complex verbs and subordination and clause chaining which in Tsova Tush is finite In terms of language contact this book concludes that 1 Tsova Tush conforms to most established borrowing hierarchies and theories surrounding intensity of contact except for the borrowing of a verbal inflection marker in

a remarkably early stage of contact 2 The Georgian influence that Tsova Tush shows in sources from the 1850 suggest that a notable increase in bilingualism occurred already at a point where there was little institutional or numeral dominance of surrounding the Georgian language population A change in ethnic self identification can be the underlying factor for the early instances of contact induced change *Morphologies of Asia and Africa* Alan S. Kaye, 2007-06-23 In 1997 Eisenbrauns published the highly regarded two volume *Phonologies of Asia and Africa* edited by Alan Kaye with the assistance of Peter T Daniels and the book rapidly became the standard reference for the phonologies of the Afro Asiatic languages Now the concept has been extended and Kaye has assembled nearly 50 scholars to write essays on the morphologies of the same language group The coverage is complete copious and again will likely become the standard work in the field Contributors are an international Who's Who of Afro Asiatic linguistics from Appleyard to Leslau to Voigt It is with great sadness that we report the death of Alan Kaye on May 31 2007 while these volumes were in the final stages of preparation for the press Alan was diagnosed with bone cancer on May 1 while on research leave in the United Arab Emirates and was brought home to Fullerton by his son on May 22 Нохчийн-ингалс, Ингалс-нохчийн Дешнижайна Johanna Nichols, A. D. Vagapov, 2004 This bilingual dictionary contains c 6000 words of essential vocabulary for Chechen basic verbs pronouns numerals conjunctions and postpositions common vocabulary and many entries of the rapidly disappearing traditional vocabulary

Sub-Indo-European Europe Guus Kroonen, 2024-10-21 The dispersal of the Indo European language family from the third millennium BCE is thought to have dramatically altered Europe's linguistic landscape Many of the preexisting languages are assumed to have been lost as Indo European languages including Greek Latin Celtic Germanic Baltic Slavic and Armenian dominate in much of Western Eurasia from historical times To elucidate the linguistic encounters resulting from the Indo Europeanization process this volume evaluates the lexical evidence for prehistoric language contact in multiple Indo European subgroups at the same time taking a critical stance to approaches that have been applied to this problem in the past *Emotions in the Human Voice, Volume 3* Krzysztof Izdebski, 2008-08-08 Bulletin of the School of Oriental and African Studies, University of London University of London. School of Oriental and African Studies, 2005 The Oxford Handbook of Language Contact Anthony P. Grant, 2020-01-10 Every language has been influenced in some way by other languages In many cases this influence is reflected in words which have been absorbed from other languages as the names for newer items or ideas such as perestroika manga or intifada from Russian Japanese and Arabic respectively In other cases the influence of other languages goes deeper and includes the addition of new sounds grammatical forms and idioms to the pre existing language For example English's structure has been shaped in such a way by the effects of Norse French Latin and Celtic though English is not alone in its openness to these influences Any features can potentially be transferred from one language to another if the sociolinguistic and structural circumstances allow for it Further new languages pidgins creoles and mixed languages can come into being as the result of language contact In thirty three chapters The Oxford

Handbook of Language Contact examines the various forms of contact induced linguistic change and the levels of language which have provided instances of these influences In addition it provides accounts of how language contact has affected some twenty languages spoken and signed from all parts of the world Chapters are written by experts and native speakers from years of research and fieldwork Ultimately this Handbook provides an authoritative account of the possibilities and products of contact induced linguistic change Chechen-English English-Chechen Dictionary and Phrasebook Nicholas

Awde,Muhammad Galaev,2014-05-22 This guide is a simple means of sharing the Chechen language and culture with speakers of English It makes no claim to be a linguistic research tool but is provided as a practical aid for the first steps in communication with an intentionally easy to use pronunciation system This is the first time Chechen has been presented in such a way a venture not without its obstacles since the language is still sadly without a truly developed analysis of its structure An attempt has been made to provide phrases and scenes from everyday life as well as items of practical

background information although their relevance clearly will depend on the actual situation in Chechnya and whether the war is in fact over or just postponed **The Oxford Handbook of Languages of the Caucasus** Maria Polinsky,2020-11-21

The Oxford Handbook of Languages of the Caucasus is an introduction to and overview of the linguistically diverse languages of southern Russia Georgia Azerbaijan and Armenia Though the languages of the Caucasus have often been mischaracterized or exoticized many of them have cross linguistically rare features found in few or no other languages This handbook presents facts and descriptions of the languages written by experts The first half of the book is an introduction to the languages with the linguistic profiles enriched by demographic research about their speakers It features overviews of the main language families as well as detailed grammatical descriptions of several individual languages The second half of the book delves more deeply into theoretical analyses of features such as agreement ellipsis and discourse properties which are found in some languages of the Caucasus Promising areas for future research are highlighted throughout the handbook which will be of interest to linguists of all subfields **In Search of Universal Grammar** Terje Lohndal,2013 This volume in honor of Jan

Terje Faarlund covers the areas in which he has contributed to linguistic theorizing ranging from in depth studies of Norwegian and Scandinavian grammar both synchronically and diachronically to work on the Indian language Chiapas Zoque The book is organized thematically with two chapters on each topic The grammar of the Scandinavian languages Tor A farli and Christer Platzack language policies and sociolinguistics Unn R yneland and Peter Trudgill French Hans Petter Helland and Christine Meklenborg Salvesen language change Werner Abraham and Elly van Gelderen lesser studied languages Alice Harris and Jerry Sadock language acquisition David Lightfoot and Marit Westergaard and language evolution Erika Hagelberg and Salikoko Mufwene This book will be of interest to a wide range of readers from students to scholars working on any of the areas covered *New Challenges in Typology* Patience Epps,Alexandre Arkhipov,2009-06-05 The volume

brings together seventeen chapters by typologists and typologically oriented field linguists who have recently completed

their Ph D theses Through their case studies of selected theoretically relevant issues the authors highlight the mutual importance of language description on the one hand and of cross linguistically informed theory on the other Faced with new data from previously unknown languages and even from lesser studied varieties of European languages linguists constantly have to deal with the inadequacy of established concepts and typologies being pushed to further refine their classifications and to question the accepted borderlines between different categories types and levels of linguistic description The scope of the individual contributions to the volume varies from worldwide typological samples to family internal typology to in depth studies of single languages The range of linguistic domains addressed include tonology morphology syntax and lexical classes Among the phenomena scrutinized are clitics tones case agreement indexation localization pluractionality desideratives labiality comitative constructions raising verb formation nominal classification parts of speech and predicates of change More general theoretical and methodological issues addressed include such topics as markedness grammaticalization lexicalization and the integration of linguistic data and description The book is of interest to typologists and field linguists as well as to any linguists interested in theoretical issues in different subfields of linguistics A particular contribution of the volume is to present a synthesis of typological and descriptive approaches to the study of language and to highlight the fact that broader typological study and the focused investigation of particular languages are interdependent ventures that necessarily inform each other

От Терека до Аргуна. Архивно-библиографический указатель Зарема Ибрагимова, 2018-03-22 **Case and Grammatical Relations** Greville G. Corbett, Michael P. Noonan, 2008 The papers in this volume can be grouped into two broad overlapping classes those dealing primarily with case and those dealing primarily with grammatical relations With regard to case topics include descriptions of the case systems of two Caucasian languages the problems of determining how many cases Russian has and whether Hungarian has a case system at all the issue of case combining the retention of the dative in Swedish dialects and genitive objects in the languages of Europe With regard to grammatical relations topics include the order of obliques in OV and VO languages the effects of the referential hierarchy on the distribution of grammatical relations the problem of whether the passive requires a subject category the relation between subjecthood and definiteness and the issue of how the loss of case and aspectual systems triggers the use of compensatory mechanisms in heritage Russian

American Book Publishing Record , 2004 **The Oxford Handbook of Language Evolution** Maggie Tallerman, Kathleen R. Gibson, 2012 Leading scholars present critical accounts of every aspect of the field including work in animal behaviour anatomy genetics and neurology the prehistory of language the development of our uniquely linguistic species and language creation transmission and change **The British National Bibliography** Arthur James Wells, 2006

When Languages Die K. David Harrison, 2008 It is commonly agreed by linguists and anthropologists that the majority of languages spoken now around the globe will likely disappear within our lifetime This text focuses on the question what is lost when a language dies
