The Battle of Britain Pocket Manual 1940 Chris McNab, 2020-04-09 A guide detailing the training and operations for the British pilots ground crew and anti aircraft gunners during the World War II battle. In the summer of 1940 Britain stood alone. For three long months brave young RAF pilots took off every day ready to defend British skies against large scale Luftwaffe raids. The Few were young but they were trained and determined. Eighty years on the last of the pilots to fly in the Battle of Britain are feted and their part in World War II is widely remembered. This pocket manual covers the training that these young pilots would have had and the air combat tactics they were taught to use against the German raiders. It also covers the role of the ground crews control and command systems anti aircraft defenses and radar and raid detection. **The Hurricane Pocket Manual** Martin Robson, 2016-05-19 The Hawker Hurricane was a British single seat fighter aircraft that was designed and predominantly built by Hawker Aircraft Ltd for the RAF. Although overshadowed by the Spitfire during the Battle of Britain the Hurricane accounted for 60% of the RAF's air victories in the battle and served in all the major theatres of the Second World War. The 1930s design evolved through several versions and adaptations resulting in a series of aircraft that acted as interceptor fighters fighter bombers also called Hurribombers and ground support aircraft. Further versions known as the Sea Hurricane had modifications that enabled operation from ships. Some were converted as catapult launched convoy escorts known as Hurricats. More than 14 583 Hurricanes were built by the end of 1944 including at least 800 converted to Sea Hurricanes and some 1 400 built in Canada. The book collates a variety of pamphlets and manuals on the plane that were produced throughout the war for the benefit of pilots and others associated with the aircraft.
