Health Care Ethics For Psychologists A Casebook:

Health Care Ethics for Psychologists Stephanie L. Hanson, Thomas R. Kerkhoff, Shane S. Bush, 2005 Health Care Ethics For Psychologists A Casebook explores the ethical questions encountered most often by practitioners in health care settings Ethical challenges occur almost routinely in health care Issues of informed consent respect for patients dignity and confidentiality the balance between patient and family rights and billing for services under managed care are just a few of the topics that challenge psychologists to uphold their ethical obligations across the health care continuum This casebook offers a real life view of ethical situations as they unfold including case by case consideration of critical background information key stakeholders the direct relevance of specific APA principles and standards and suggested steps to resolve ethical issues Case examples in settings from the emergency room to long term care vividly illustrate the complexities of ethical dilemmas and case commentaries helpfully explicate the quandaries presented These detailed cases allow the reader to acquire a true understanding of the patients specific contexts and the challenges to clinical decision making This dynamic view affords readers the opportunity to critically evaluate the **Ethics for Psychologists** Liang Tien, Amy Davis, Thomas H. Arnold, G. Andrew H. Benjamin, 2011-10-26 I think that one of the great strengths of this book is its real life cases for the students to examine from multiple perspectives Sherry Dingman Marist College This book approaches ethics from a unique perspective that appeals to students In addition to providing stimulating cases it provides the framework and legal background important to psychologists in training Amazing work The vignette approach makes the book much more interesting than its competitors Misty Ginicola Southern Connecticut State University Full coverage of the American Psychological Association's APA Ethical Principles of Psychologists and Code of Conduct and engaging vignettes to draw students into Ethics for Psychologists a unique textbook that explores the standards of conduct in the field of psychology from key perspectives including the multicultural moral and legal perspectives Focusing on complex ethical dilemmas students may encounter in real life this book offers a variety of frameworks through which to examine such dilemmas as well as commentaries about the dictates of our personal codes of ethics Students are challenged to take control of their learning experience by moving beyond the basics of looking up each situation to find the right thing to do into a more active and engaged approach with the goal of becoming ethical thinkers and informed decision makers **A Casebook of Ethical Challenges in Neuropsychology** Shane S. Bush, 2004-11-23 The American Psychological Association published a revision of the Ethical Principles of Psychologists and Code of Conduct in 2002 This text a companion to the 2002 text Ethical Issues in Clinical Neuropsychology by Bush and Drexler presents the reader with common ethical challenges in neuropsychology This text examines the differences between the 1992 and 2002 APA Ethics Codes as they relate to neuropsychological activities The authors present cases and discuss ethical issues related to neuropsychological practice with a variety of patient populations and in a variety of clinical settings In addition ethical issues in neuropsychological research and test

development are examined The text also includes chapters on emerging and particularly challenging aspects of neuropsychological practice such as the assessment of response validity and the use of information technology and telecommunications Through the use of case illustrations the authors examine ethical issues in neuropsychology and the new Ethics Code offering a practical approach for understanding and promoting ethical neuropsychological practice

Case Studies for Ethics in Academic Research in the Social Sciences Leisa Reinecke Flynn, Ronald E. Goldsmith, 2013 This book provides a basis for class discussion about the responsible conduct of social science research These 16 brief research ethics cases describe situations in which ethical dilemmas arise and present the student with the opportunity to think through the different implications for researchers The cases emphasize different types of ethical dilemmas involving faculty students participants and stakeholders Students can discuss what happened why it was or was not unethical and what should be the consequences for the actors Included are the original cases complete with learning objectives teaching notes and questions for discussion

Ethical Decision Making in Clinical Neuropsychology Shane S. Bush, 2018-10-04 The ability to anticipate avoid and resolve ethical conflicts in neuropsychology is a dynamic process that must be developed and maintained over time Ethics codes and professional guidelines are drafted and updated changes in clinical practice occur and new laws are implemented To practice in a manner consistent with the highest ethics principles neuropsychologists must be able to integrate the evolving ethical and legal requirements into their professional activities The primary purpose of this 2nd edition is to review ethical guidelines and literature relevant to clinical neuropsychology that have been published since the first edition of this book was published a decade ago A number of important publications have emerged since the first edition was published including new Specialty Guidelines for Forensic Psychology Standards for Educational and Psychological Testing and position statements practice guidelines by APA e g Assessment of Older Adults with Diminished Capacity co authored with ABA and other professional organizations e g AACN NAN that are directly relevant to neuropsychological practice In addition scholarly publications have contributed knowledge to ethical practice in general e g Knapp s VandeCreek s work on positive ethics which is relevant for and should be applied to neuropsychological practice Additionally book chapters on ethics in subspecialty areas e g pediatric and geriatric neuropsychology mTBI Veterans have advanced our understanding of ethical issues in neuropsychology and should be integrated into a new edition of the book Finally advances in technology and

increased use of technology in clinical neuropsychology bring ethical issues and challenges incorporated in the new edition of the book Learning exercises and study questions at the end of the chapters help readers review the main points and check their learning progress

Geropsychology and Long Term Care Erlene Rosowsky, Joseph M. Casciani, Merla Arnold, 2010-01-23 It is with great pride that the Psychologists in Long Term Care PLTC have sponsored The Professional Educational Long Term Care Training Manual and now its second iteration Geropsychology and Long Term Care A Practitioner's Guide Education of psychologists working in long term care settings is consistent with PLTC's mission to assure the provision of high quality psychological services for a neglected sector of the population i.e residents in nursing homes and assisted living communities To this end direct training of generalist psychologists in the nuances of psychological care delivery in long term care settings has been a major priority It is a tribute to the accelerating nature of research in long term care settings that a revision is now necessary After all the Professional Educational Training Manual's initial publication date was only in 2001 However in the intervening years much progress has been made in addressing assessment and intervention strategies tailored to the needs of this frail but quite diverse population It is so gratifying to be able to say that there is now a corpus of scientific knowledge to guide long term care service delivery in long term care settings

Ethics Field Guide Thomas R. Kerkhoff, Stephanie L. Hanson, 2013-03-06 We have provided the reader with a resource for applied ethical decision making for use in clinical educational and research settings The Rehabilitation Psychologist using this book will have a choice of utilizing a Quick Reference guide including pro con positions regarding possible resolutions and a tabular summary of the varied case examples presented or making use of more detailed discussion of the ethical concepts pertinent to each case The most important aspect of this book is inclusion of psycho social context for each case This critical factor allows the reader to understand the flow of events and other factors influencing the actions of the key stakeholders thereby facilitating the ethical decision making process The mix of case examples is intentionally broad based including ample clinical practice situations along with challenges found in educational and research settings There is also variety among the case examples with two detailed scenarios in each chapter along with two briefer learning exercises with focused summaries The reader is challenged to analyze each case and compare the

results with the preferred resolution proposed by the authors Finally at the end of the book the reader has access to a list of ethics relevant reading resources These resources are divided into categorical domains that will assist with literature searches and further research into applied ethics The authors trust that this book will serve as a preparatory experience for those psychologists studying for the Rehabilitation Psychology specialty board exam as well as trainees and clinicians at all levels who desire an applied approach to utilizing the APA Ethics Code as an invaluable guide to everyday professional practice
