*The Soft Power of War* Lilie Chouliaraki, 2007-06-05 This book which was originally published as a Special Issue of *Journal of Language Politics* 4 1 2005 takes the war in Iraq as an exemplary case through which to demonstrate the changing nature of contemporary power The book convincingly argues that the effective study of international politics depends today upon our understanding of the interplay between hard military economic and soft symbolic power One might say between the politics of territory guns or money and the language of narrating the world in coherent and persuasive stories Bringing

together different strands of discourse analysis with social historical and to an extent political analysis all contributions seek to illustrate the ways in which a variety of public genres from political speeches to computer games and from educational material to newspaper reports produce influential knowledge about the war and shape the ethical and political premises upon which the legitimacy of this war and a vision of the emergent world order rests

**Patterns, Meaningful Units and Specialized Discourses** Ute Römer, Rainer Schulze, 2010 This collection of papers explores some facets in the areas of Corpus Linguistics and Phraseology which have gone unnoticed so far With the aid of a range of different corpora and new generation software tools the authors tackle specialized domains and discourse in specialized settings utilizing some innovative approaches to the study of recurrent features and patterns in the languages of economics history linguistics politics and other fields The papers critically examine contemporary discourses in which experts and laypersons are equally involved showing that the spoken and written texts selected from various specialized corpora can be seen as collective memory banks The series of reflections and specialized meanings uncovered in these texts are closely tied to particular sequences of patterned chunks in language and offer exciting insights into the inseparability of lexis and grammar The contributions to this volume were previously published in International Journal of Corpus Linguistics 13 3 2008

Dolmetschen im Medizintourismus Katia Iacono, 2021-02-15 Deutschland und sterreich sind aufgrund ihrer medizinischen Standards beliebte Zielländer für internationale PatientInnen die nach einer Zweitmeinung zu einer Diagnose bzw zu einem Therapievorschlag oder einer speziellen medizinischen Behandlung suchen Der finanzielle und organisatorische Aufwand medizinischer Reisen führt zu hohen Erwartungen der PatientInnen an die Behandlung und an alle beteiligten AkteurInnen In diesem Kontext werden DolmetscherInnen häufig zu Hauptansprechpersonen der PatientInnen die sich an sie mit zusätzlichen organisatorischen Wünschen wenden Dieser Band untersucht die Erwartungen und das erweiterte Anforderungsprofil mit denen DolmetscherInnen im Medizintourismus in Deutschland und sterreich konfrontiert sind Er richtet sich an DolmetscherInnen sowie an ÄrztInnen und VertreterInnen medizinischer Institutionen die mit DolmetscherInnen zur Überwindung von Sprachbarrieren zusammenarbeiten

**Translation and Music** Sebnem Susam-Sarajeva, 2016-04-08 Popular and multimodal forms of cultural products are becoming increasingly visible within translation studies research Interest in translation and music however has so far been relatively limited mainly because translation of musical material has been considered somewhat outside the limits of translation studies as traditionally conceived Difficulties associated with issues such as the musicality of lyrics the fuzzy boundaries between translation adaptation and rewriting and the pervasiveness of covert or unacknowledged translations of musical elements in a variety of settings have generally limited the research in this area to overt and canonized translations such as those done for the opera Yet the intersection of translation and music can be a fascinating field to explore and one which can enrich our understanding of what translation is and how it relates to other forms of expression This special issue is an attempt to open up the field of translation and music

to a wider audience within translation studies and to an extent within musicology and cultural studies The volume includes contributions from a wide range of musical genres and languages from those that investigate translation and code switching in North African rap and rai and the intertextual and intersemiotic translations revolving around Mahler's lieder in Chinese to the appropriation and after life of Kurdish folk songs in Turkish and the emergence of rock n roll in Russian Other papers examine the reception of Anglo American stage musicals and musical films in Italy and Spain the concept of singability with examples from Scandinavian languages and the French dubbing of musical episodes of TV series The volume also offers an annotated bibliography on opera translation and a general bibliography on translation and music
