EXTRA ATTACK

Beginning at 5th level, you can attack twice, instead of once, whenever you take the Attack action on your turn.

AUGMENTED SMITE

Starting at 5th level, you've learned how to channel an increased amount of plasma when your attacks hit. When you hit a creature with a melee weapon attack, you can expend one spell slot to deal damage to the target, in addition to the weapon's damage. The extra damage is 2d8 for a 1st-level spell slot, plus 1d8 for each spell level higher than 1st, to a maximum of 5d8. The damage increases by 1d8 if the target is a construct or a plant, to a maximum of 6d8. The extra damage type is concurrent with the gauntlet that you hit the target with.

REVANGELIC'S HOMEBREW SMITING

Smiting is known to be an incredibly powerful and fun ability available almost exclusively to Paladins. In order to make smiting spells more useful, I've ruled that smiting spells can be cast with a casting time of one reaction.

In addition to increasing these spells usage, this tweak has also increased the "wow factor" when a hit connects and smites are called.

Speak with your DM about possibly implementing this rule at your table for this and possibly any other character!

GLYPH OF DISCHARGING

Starting at 9th level, you have learned how to place a Glyph of Discharging on the knuckles of your gauntlets. The glyphs can hold a spell from the associated spell list for the gauntlets type.

To imbue a gauntlet with a glyph and spell, you may spend 10 minutes casting the spell as a ritual. The spells can only be imbued at their base level, and do not cost a spell slot.

If the spells duration is longer than instantaneous, it lasts only one round. If the spell requires concentration, that requirement is waived and the glyphs expenditure does not interrupt you if you are already concentrating.

Expendng a Glyph of Discharging requires one of your two attacks or a bonus action after a hit, and one roll of your Plasma Die. The roll of the Plasma Die damages you for an equivalent amount of necrotic damage, and the spell takes effect immediately.

Each gauntlet can only hold one glyph at a time. If you cast a second into it, the first spell dissipates and you lose a spell slot of the level appropriate to the new spell.

OVERCLOCK

Finally, at 15th level, you can overcharge your Plasma Gauntlets with a continuous stream of blood. You can trigger this mode whenever you activate your gauntlets.

For 1 minute you can roll your Plasma Die at the start of each of your turns and take necrotic damage equal to the amount rolled. Each time your attacks hit, the target takes double the amount rolled in addition to all of your current bonuses and options to buff damage. The damage type is concurrent with your gauntlet type.

This mode does not end when you fall unconscious, and you fall one death saving throw for each round you are unconscious and Overclock is active. You can deactivate this mode at any time as a reaction on your turn or when you take damage.
