Shaping Regional Futures Valeria Lingua, Verena Balz, 2019-10-22 This book discusses the role of regional design and visioning in the formation of regional territorial governance to offer a better understanding of 1 how a recognition of spatial dynamics and the visualization of spatial futures informs and is informed by planning frameworks and 2 how such design processes inform co operation and collaboration on planning in metropolitan regions It gathers theoretical reflections on these topics and illustrates them by means of practical experiences in several European countries Innovatively associating ideas with knowledge it appeals to anyone with an interest in planning experiments in a post regulative era It aims at an increased understanding of how practices engaged with the imagination of possible futures support the creation of institutional capacity for strategic spatial

planning at regional scales Handbook on Transport and Urban Planning in the Developed World Michiel C.J. Bliemer, Corinne Mulley, Claudine J. Moutou, 2016-02-26 This Handbook provides comprehensive coverage of all of the major factors that underpin our understanding of urban and transport planning in the developed world Combining urban and transport planning in one volume the chapters present the state of the art as well as new research and directions for the future The contributions from leading international academics at the forefront of their fields consider transport and urban planning from a number of different perspectives including historical policy and strategy dimensions appraisal and financing of options planning and design of urban areas and the management of transport and urban systems Examples and practical guides from the developed world are included along with a detailed discussion of the emerging issues The Handbook provides an essential reference to all of the key points on the topic as well as signalling areas of concern and future research paths Academics researchers students policymakers and practitioners will find it a constant source of information and guidance **Infrastructure Finance in Europe** Youssef Cassis, Giuseppe De Luca, Massimo Florio, 2016 The social returns of investment in water roads and railways are apparent in the long run but this distant horizon poses problems to governments and investors This volume explores the different historical paths to solving the problem of infrastructure finance in Europe from the fall of the Roman Empire to the end of the 20th century **Smart Cities and Infrastructure** United Nations. Economic and Social Council, 2016 The World Won't Wait Roland Paris, Taylor Owen, 2016-01-01 In *The World Won't Wait* some of Canada's brightest thinkers present essays on both classic foreign policy issues such as international security human rights and global institutions and emerging issues like internet governance climate change and sustainable development *Re|shaping cultural policies: advancing creativity for development* UNESCO, 2017-12-11 This Report demonstrates that innovative cultural policies implemented at regional and local levels have a positive impact on the whole of cultural governance It highlights the strategic frameworks best adapted to the digital environment the emergence of exchange platforms and the dynamism of artistic incubators in the global South It also points to the persistent inequalities and underrepresentation of women in the culture sector trade barriers on cultural goods and services from the global South and the vulnerability of artists at risk By providing yet unpublished statistics and data in these areas this Report is essential for developing and implementing public policies that are adapted to the evolving needs of the culture sector Foreword Situated Practices of Strategic Planning Louis Albrechts, Alessandro Balducci, Jean Hillier, 2016-07-22 All over the world societies are facing a number of major problems New developments challenges and opportunities cause these issues and yet cases tell us that traditional spatial planning responses and tools are often insufficient to tackle these problems and challenges *Situated Practices of Strategic Planning* draws together examples from across the globe from France to Australia from Nigeria to the United States as it observes international comparisons of the strategic planning process Many approaches and policies used today fail to capture the dynamics of urban regional transformation and are more concerned

with maintaining an existing social order than challenging and transforming it Stewarded by a team of highly regarded and experienced researchers this book gives a synthetic view of the process of change and frames future directions of development It is unique for its combination of analysis of international case studies and reflection on critical nodes and features in strategic planning This volume will be of interest to students who study regional planning academics professional planners and policy makers **The Political Economy of Megaprojects in Asia** Hyun Bang Shin,Dong-Wan

Gimm,2025-02-18 This book offers a comprehensive analysis of how the developmental goals of Asian states are reflected in large scale projects and how various actors both realize and challenge these goals The rise of Asian economies has spurred the proliferation of megaprojects through large scale resource mobilization necessitating varying degrees of state intervention Despite neoliberal pressures these projects remain linked to national developmental aspirations driven by domestic transnational or combined pro growth interests and serve multiple political purposes The book advances the argument that megaprojects embody the dynamics of multiscalar strategic relations that determine the process and outcome of urbanization These projects create iconic landmarks new towns central business districts and infrastructure showcasing intertwined political and economic interests By examining contemporary megaprojects in China South Korea Taiwan India Malaysia and Turkey the contributing authors reveal the complexity of urbanizing forces and their multiscalar nature in shaping the built environment and shed light on the intricate interplay of state strategies economic needs and sociopolitical forces that influence urban landscapes This interdisciplinary work provides a nuanced understanding of the political economy underpinning Asian urbanization and contributes to ongoing debates on urban development state society relations and the production of space in the context of globalization Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Report: Myanmar 2014 Oxford Business Group,2014-03-03 The Golden Land officially known as the Republic of the Union of Myanmar and formerly as Burma has undergone dramatic reforms in recent years under the administration of President U Thein Sein The rapid transition from a military junta to an open economy has surprised the global community and will see Myanmar assume the ASEAN chair for the first time in 2014 Known as the last frontier market Myanmar is rich in natural resources and has an established extractive industries sector with one of the world's oldest continuously producing oil fields The country also enjoys significant mineral resources which remain greatly under explored by international mining firms something the government is proactively trying to change The easing of economic sanctions has accelerated the nation's economic growth but Myanmar still faces political challenges including ongoing ethnic conflict and religious tensions However with greater access to international markets and a growing number of business opportunities investors are cautiously optimistic about the country's future Latin American Economic Outlook 2014 Logistics and Competitiveness for Development OECD,CAF Development Bank of Latin America,Economic Commission for Latin America

and the Caribbean,2013-10-18 This edition of the Latin American Economic Outlook finds stable growth but uncertainty with regards to the commodity boom The special theme is logistics and competitiveness American Regulatory Federalism and Telecommunications Infrastructure Paul E. Teske,2014-03-18 During this era of construction of the information superhighway this volume presents a prudent analysis of the pros and cons of continuing state regulation of telecommunications While interested parties either attack or defend state regulation careful scholarly analysis is required to strike the appropriate balance of regulatory federalism Focusing on regulation in the 1990s it uses a positive political economy perspective to analyze enduring state federal conflicts and to weigh the justifications and explanations for continuing state telecommunications regulation or for changing its structure It also considers normative concerns and makes recommendations about how to improve telecommunications policy Seriously concerned with assessing the problems surrounding cost burdens for different categories of consumers market entry for different firms economic growth and the information infrastructure global competitiveness and control over information this volume attempts to provide answers to the following specific questions How are states regulating telecommunications in the brave new world of global markets fiber optics and digital technology Do states vary significantly in their regulatory models How are the politics of state and federal regulation different Would a different federal state relationship better serve national telecommunications goals in the future To tackle these critical questions the scholarly perspectives of economists lawyers political scientists and telecommunications consultants and practitioners are employed **Water Reuse Policies for Potable Use** Cecilia Tortajada,Choon Nam Ong,2018-10-11 As water demand has increased globally and resources have become more limited because of physical scarcity over exploitation and pollution it has been necessary to develop more options for water supplies These options include the production at large scale of high quality reused water from municipal sources for potable uses Their economic social and environmental benefits have been many as they have addressed supply scarcity efficient resource use and environmental and public health considerations This book includes discussions on potable water reuse history emerging contaminants and public health public private partnerships in the water reuse sector regulatory frameworks for reused water in the United States and Europe experiences in Australia China in general and Beijing in particular Singapore and Windhoek narratives and public acceptance and perceptions of alternative water sources The main constraints on implementation of water reuse projects in different parts of the world seem to have been lack of full public support due to perceived health hazards and environmental impacts A main handicap has been that governments and water utilities have been slow to understand public concerns and perceptions After several backlashes public information communication and awareness campaigns broader participation and educational programmes have become integral parts of development policy and decision making frameworks **New Urban Spaces** Neil Brenner,2019-05-24 In New Urban Spaces Neil Brenner proposes a radical reconceptualization of inherited approaches to urbanization Rather than focusing on cities as bounded units

urbanization is conceived here as multiscalar Drawing on the methods of critical geopolitical economy especially the writings of Henri Lefebvre Brenner systematically elaborates this multiscalar conceptualization of the capitalist urban fabric in order to investigate emergent patterns and pathways of urban restructuring
