innovations matter as well **Science and Technology Policy - Volume I** Rigas Arvanitis, 2009-07-20 Science and Technology Policy theme is a component of Encyclopedia of Technology Information and Systems Management Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias Science and technology policy covers all the public sector measures designed for the creation funding support and mobilization of scientific and technological resources The content of the Theme on Science and technology policy provides the essential aspects and a myriad of issues of great relevance to our world such as Science and Technology Policy International Dimensions of Science and Technology Policy The Innovation System The Policy Making Process in Science and Technology Regional Perspectives A New Scenario for Science and Technology Policies in the Developed and Developing World These two volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs *Assessing Technology and Innovation Policies* Cristiano Antonelli, Albert N. Link, 2020-05-21 This volume brings together eminent international scholars to discuss and analyze regional and national technology and innovation policies from an economic assessment or economic impacts perspective The analysis covers policies relevant to countries in Europe and Asia and the United States Not only might this volume initiate further study of technology and innovation policies on a country by country basis but also it might open doors for comparative policy analysis This book was originally published as a special issue of Economics of Innovation and New Technology *Patent Law, Green Technology and Innovation* Ankit Singh, Yogendra Srivastava, 2022-09-19 In the era of modern industrial regimes the role of technology in tackling climate change is pivotal International goals of climate change mitigation and sustainable development cannot be achieved without the contribution of new technologies At the same time the importance of patent protection and an efficient patent system that facilitates technology transfer among international frontiers cannot be overlooked Many patented technologies are either not accessible for further dissemination or do not hold much technical value Therefore advanced systems of collaborative innovation have been developed especially in the sector of green technology and green innovation The environmental concerns of the global community cannot be tackled by a single company person sector or country Innovation partnerships and collaborative research will play a vital role in combating global climate concerns and in determining the diffusion of green technologies for maximum impact This book argues that policy makers should encourage partnerships in technology rather than focusing on gaining investment and access to green technology to encourage global technological giants to transfer their technology and knowledge to local entities It analyzes the relationship between patent protection green innovation and diffusion of green technology against the backdrop of climate change and severe climate crisis Taking an interdisciplinary approach to align patent law and green technology with the Sustainable Development Goals it examines the effects of patent protection technology transfer and compulsory licensing on the diffusion of green technologies while offering a systematic analysis of

the relationship between patent protection green innovation and diffusion of green technology from a global perspective

Forum for Applied Research and Public Policy, 1990 Fiscal Policy and Institutional Renovation in Support of Innovative Country Building Jia Kang, 2020-12-06 Since the onset of the twelfth Five Year Plan China has been at the forefront as an innovative nation based on a carefully designed strategy Despite this it can be argued that the Chinese government requires a series of more effective and systematic fiscal and taxation policies This book analyses the status quo and possible optimization of China s fiscal and taxation policies By drawing comparisons with other countries as well as a practical investigation into the lessons China has drawn from elsewhere the author shows how a nation should make steadily growing and optimized financial investments in science and technology in order to foster the optimum environment for innovation It is shown that institutional innovation should be a systematic project which involves top level design and top down leadership This volume will be a useful reference for students scholars and policy makers who are interested in financial policy *Science, Technology and Innovation Policy Instruments for the Sustainable Development Goals* Galindo Moreno, Manuel Ricardo, UNESCO, 2024-05-08 *Green finance & carbon neutrality: strategies and policies for a sustainable future* Wei Zhang, Tian Tang, Satar Bakhsh, Xuemeng Liu, 2025-09-01 The accelerating global climate crisis demands innovative and sustainable financial strategies to mitigate its impacts and facilitate the transition to a carbon neutral economy Green finance and carbon neutrality are instrumental in this endeavor Green finance entails financial investments directed towards sustainable development projects and initiatives that promote environmental benefits Its growth is critical in supporting the transition to a low carbon economy Simultaneously the concept of carbon neutrality which refers to achieving net zero carbon dioxide emissions by balancing or eliminating emissions entirely has become a central goal for many governments and organizations worldwide The urgent global challenge that this Research Topic aims to address is how to effectively integrate green finance strategies into our path towards achieving carbon neutrality Despite the increasing importance of both these areas there remains a significant knowledge gap on how they can synergistically drive a shift towards a low carbon sustainable economy Moreover the absence of standardized regulations and lack of broad understanding of these concepts have contributed to slower adoption and implementation rates than what is urgently required The goal of this Research Topic is to consolidate recent advancements present innovative strategies and highlight successful case studies in the nexus of green finance and carbon neutrality This includes exploring novel financial instruments and models that encourage sustainable investments comprehending the socio economic impacts of moving towards a carbon neutral economy and showcasing policy mechanisms that have effectively integrated green finance and carbon neutrality By amalgamating these insights we aim to guide policymakers inform business practices stimulate further academic exploration and ultimately accelerate the global journey towards a sustainable carbon neutral future The scope of this Research Topic encompasses a broad range of themes at the intersection of green finance and carbon neutrality We are particularly interested in empirical

Original Research articles in depth Reviews of current literature Policy and Practice Reviews and case studies demonstrating the successful application of green finance strategies in achieving carbon neutrality Potential topics include but are not limited to following areas Development of innovative green financial instruments Analysis of policy frameworks and regulations promoting carbon neutrality Examination of the role of ESG Environmental Social Governance factors in investment decisions Studies on the socio economic impacts of transitioning to a carbon neutral economy Manuscripts that provide novel insights propose unique models or offer critical perspectives on existing approaches are highly encouraged By collating these diverse viewpoints we aim to further enrich the dialogue on sustainable development and carbon neutrality
