**Multicultural Child Care** Paul Vedder, Ellen Bouwer, Trees Pels, 1996 What is the state of multicultural education in child care centres in Western European countries What should multicultural education in these centres look like These are the two key questions addressed in this book In this study the authors have analysed the state of multicultural education in child care centres in the Netherlands England Scotland Denmark Sweden Germany Belgium France and Spain The main situation considered here is the Netherlands where the recent and rapid growth of the number of child care centres together with the growing numbers of immigrant children visiting these centres have given a strong impetus to concerns about the quality of centre education from a multicultural perspective For centre staff sensitive responses towards children and parents as well as parental involvement have become essential for managing cultural diversity in a way beneficial for both migrant and indigenous families It is argued that defining and improving the quality of centre education from a multicultural perspective require discussions between staff and parents about educational goals and the means to achieve them The book gives recommendations for improving the relationship between staff and parents by way of consensus building about these aims

**Research Anthology on Developing Socially Responsible Businesses** Management Association, Information Resources, 2022-03-04 In today s world of global change it has never been more critical for businesses to adapt their strategies management styles and policies to match that of the surrounding environment

Consumers are increasingly becoming more aware of the impact that businesses and product consumption have on environmental health. Thus businesses have had to alter their production workflows to better suit a more environmentally conscious customer base. As society faces numerous issues related to the environment, health, poverty, and social justice, the need for socially responsible businesses is crucial to develop and improve the overall landscape of the business field. The Research Anthology on Developing Socially Responsible Businesses discusses the best practices, challenges, opportunities, and benefits of creating socially responsible businesses and provides a context of why these business models are needed. This essential text also considers how society has changed over time and how businesses must adjust their ideals and practices in order to survive in a changing world. Covering a range of topics such as accountability, environmental issues, and human rights, this major reference work is ideal for business owners, managers, policymakers, academicians, researchers, scholars, practitioners, instructors, and students.

**Software Durability** Rajeev Kumar, Suhel Ahmad Khan, Raees Ahmad Khan, 2023-04-13 Software evolution is a time consuming and costly process due to its complex architecture. Software designers need to produce software that is effective as well as durable. Durability and effectiveness of software are the foremost priorities and challenges for developers. This book comprises real life case studies of durability issues and their solutions that bring to light loopholes and show how to fix them to enhance durability. Existing literature on software durability tells us that the first step is to recognise the problem. It gives information about durability risk estimation, knowledge, and governance based on five main characteristics: dependability, trustworthiness, usability, security, and human trust. The book serves as a complete package to get acquainted with assurance and risk management from a software durability perspective. It enhances our understanding of the concept of durability, its multi-dimensional approach, threats, and their types, risk mitigation techniques, and suggestive measures. The book reviews the emerging trends in the software development process in the context of durability concepts such as automated code reviews, coding standards, and software durability standards, and their testing, cost management solutions, low code or no code solutions, and durability assurance.
