White, Janet S. Herman, Ellen K. Herman, Marian Rutigliano, 2017-09-06 This book sheds new light on contaminant transport in karst aguifers and the public health implications of contaminated karst groundwater The papers included were presented at a conference held in early 2016 in San Juan Puerto Rico and range from lengthy reviews on contaminant transport mechanisms to short articles summarizing research findings The conference addressed a variety of topics such as contamination sources the hydrogeology of contaminant transport the storage and release of contaminants and the health impacts as well as the epidemiology of contaminated water supplies drawn from karst aguifers and gathered perspectives from experts in different disciplines including hydrogeologists and public health specialists Although there is a

wealth of literature on specific instances of karst groundwater contamination this book offers an integrated conceptual framework for the public health impacts of karst groundwater making it a valuable resource for a broad interdisciplinary Photogrammetry Christopher D Armstrong, 2018-11-02 Collision Reconstruction Methodologies Volume 3A The last ten years have seen explosive growth in the technology available to the collision analyst changing the way reconstruction is practiced in fundamental ways. The greatest technological advances for the crash reconstruction community have come in the realms of photogrammetry and digital media analysis The widespread use of scanning technology has facilitated the implementation of powerful new tools to digitize forensic data create 3D models and visualize and analyze crash vehicles and environments The introduction of unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced the ability of a crash analyst to visualize and model the components of a crash reconstruction Because of the technological changes occurring in the industry many SAE papers have been written to address the validation and use of new tools for collision reconstruction Collision Reconstruction Methodologies Volumes 1 12 bring together seminal SAE technical papers surrounding advancements in the crash reconstruction field Topics featured in the series include Night Vision Study and Photogrammetry Vehicle Event Data Recorders Motorcycle Heavy Vehicle Bicycle and Pedestrian Accident Reconstruction The goal is to provide the latest technologies and methodologies being introduced into collision reconstruction appealing to crash analysts consultants and safety engineers alike **Conservation Drones** Serge A. Wich, Lian Pin Koh, 2018-05-31 Increasing numbers of ecologists and conservation biologists have begun to explore the use of drone technology to obtain accurate and up to date data on the distribution and density of species as well as the threats to their habitats in their ongoing attempts to conserve and monitor biodiversity Conservation drones are low cost autonomous and operator friendly unmanned aerial vehicles that can be used for surveying mapping and monitoring both habitat and biodiversity They are fast becoming a valuable complement to ground based surveys and satellite imagery for a wide range of ecological and conservation applications. The authors pioneered the use of conservation drones for the purpose of monitoring orangutan populations in Southeast Asia They subsequently founded ConservationDrones org to share their knowledge of building and using drones with colleagues in the wider environmental community This website has proved highly popular and this book aims to further build capacity to use drones and inspire others to adapt emerging technologies **Designing Interaction and Interfaces for Automated Vehicles** Neville Stanton, Kirsten M. for practical conservation A. Revell, Patrick Langdon, 2021-03-10 Driving automation and autonomy are already upon us and the problems that were predicted twenty years ago are beginning to appear These problems include shortfalls in expected benefits equipment unreliability driver skill fade and error inducing equipment designs Designing Interaction and Interfaces for Automated Vehicles User Centred Ecological Design and Testing investigates the difficult problem of how to interface drivers with automated vehicles by offering an inclusive human centred design process that focusses on human variability and capability

in interaction with interfaces This book introduces a novel method that combines both systems thinking and inclusive user centred design It models driver interaction provides design specifications concept designs and the results of studies in simulators on the test track and in road going vehicles This book is for designers of systems interfaces interactions UX Human Factors and Ergonomics researchers and practitioners involved with systems engineering and automotive academics In this book Prof Stanton and colleagues show how Human Factors methods can be applied to the tricky problem of interfacing human drivers with vehicle automation They have developed an approach to designing the human automation interaction for the handovers between the driver and the vehicle This approach has been tested in driving simulators and most interestingly in real vehicles on British motorways The approach called User Centred Ecological Interface Design has been validated against driver behaviour and used to support their ongoing work on vehicle automation I highly recommend this book for anyone interested or involved in designing human automation interaction in vehicles and beyond Professor Michael A Regan University of NSW Sydney AUSTRALIA Doing Experimental Media Archaeology Tim van der Heijden, Aleksander Kolkowski, 2022-12-31 In recent years there has been a growing interest in the use of experimental approaches to the study of media histories and their cultures Doing media archaeological experiments such as historical re enactments and hands on simulations with media historical objects helps us to explore and better understand the workings of past media technologies and their practices of use By systematically reflecting on the methodological underpinnings of experimental media archaeology as a relatively new approach in media historical research and teaching this book aims to serve as a practical handbook for doing media archaeological experiments Doing Experimental Media Archaeology Practice is the twin volume to Doing Experimental Media Archaeology Theory authored by Andreas Fickers and Annie van den Oever

transformations ensuring that Mark Briggs proven guide for leveraging digital technology to do better journalism keeps pace with ongoing changes in the media landscape To keep ahead and abreast of these ever evolving tools and techniques Briggs offers practical and timely guidance for both the seasoned professional looking to get up to speed and the digital native looking to root their tech know how in real journalistic principles Learn how to effectively blog crowdsource use mobile applications mine databases and expertly capture audio and video to report with immediacy cultivate community and tell compelling stories Journalism Next will improve digital literacy fast Briggs starts with the basics and then explores specialized skills in multimedia so you can better manage online communities and build an online audience Journalism Next is a quick read and roadmap you ll reference time and time again Dive into any chapter and start mastering a new skill right away And for today s journalist who can afford to waste any time Feature and Narrative Storytelling for Multimedia **Iournalists** Duy Linh Tu,2015-01-09 Feature and Narrative Storytelling for Multimedia Journalists is the first text that truly focuses on the multimedia and documentary production techniques required by professional journalists Video and audio production methods are covered in rich detail but more importantly various storytelling techniques are explored in depth Likewise author Duy Linh Tu tackles the latest topics in multimedia storytelling including mobile reporting producing and publishing while also offering best practices for using social media to help promote finished products Whether you re a student a professional seeking new techniques or simply looking to update your skills for the new digital newsroom this book will provide you with the information and tools you need to succeed as a professional journalist Integrated The lessons in this book deftly combine traditional media production principles with storytelling craft It is written with the perspective of modern professional journalists in mind Practical While rich with theory this text is based on the real world work of the author and several of his colleagues It features Q As with some of the best editors and video producers from top publications including NPR Vice and Detroit Free Press as well as profiles of leading video news organizations such as Frontline Mediastorm and Seattle Times Proven The author uses pedagogy from the world renowned Columbia Journalism School as well as case studies from his own award winning work Interactive The text is exercise and drill based and the companion website provides multimedia examples and lesson files as well as tutorials case studies and video interviews

Proceedings of the 21st Congress of the International Ergonomics Association (IEA 2021) Nancy L. Black, W. Patrick Neumann, Ian Noy, 2021-04-30 This book presents the proceedings of the 21st Congress of the International Ergonomics Association IEA 2021 held online on June 13 18 2021 By highlighting the latest theories and models as well as cutting edge technologies and applications and by combining findings from a range of disciplines including engineering design robotics healthcare management computer science human biology and behavioral science it provides researchers and practitioners alike with a comprehensive timely guide on human factors and ergonomics It also offers an excellent source of innovative ideas to stimulate future discussions and developments aimed at applying knowledge and techniques to optimize

system performance while at the same time promoting the health safety and wellbeing of individuals The proceedings include papers from researchers and practitioners scientists and physicians institutional leaders managers and policy makers that contribute to constructing the Human Factors and Ergonomics approach across a variety of methodologies domains and productive sectors This volume includes papers addressing the following topics Activity Theories for Work Analysis and Design ATWAD Organisation design and management ODAM Ergonomic Work Analysis and Training EWAT Systems HF E **Remote Sensing for Archaeology and Cultural** HF E Education and Professional Certification Development Landscapes Diofantos G. Hadjimitsis, Kyriacos Themistocleous, Branka Cuca, Athos Agapiou, Vasiliki Lysandrou, Rosa Lasaponara, Nicola Masini, Gunter Schreier, 2019-06-07 This book investigates the added value that satellite technologies and remote sensing could provide for a more sustainable mapping monitoring and management of heritage sites be it for purposes of regular maintenance or for risk mitigation in case of natural or man caused hazards. One of the major goals of this book is to provide a clear overview on policy perspectives regarding both space policy as well as heritage policy and to provide possible suggestions for common ground of these two fields in Europe and around the world Readers will develop a good understanding of cutting edge applications of remote sensing and geographic information science and the challenges that affect heritage maintenance and protection Particular attention is given to Earth observation and remote sensing techniques applied in different locations. This book brings together innovative technologies concrete applications and policy perspectives that can lead to a more completevision of cultural heritage as a resource for future development of our society as a whole Proceedings of the 7th Asia Pacific Conference on Manufacturing Systems and 6th International Manufacturing Engineering Conference—Volume 1 Siti Nadiah Mohd Saffe, Siti Zubaidah Ismail, Cucuk Nur Rosyidi, Mohammad Osman Tokhi, 2025-05-30 This publication showcases the 7th Asia Pacific Conference on Manufacturing System and 6th International Manufacturing Engineering Conference iMEC APCOMS 2024 proceedings It emphasizes the UN Sustainable Development Goals in recent developments and significant challenges in manufacturing industry along with the emergence of intelligent manufacturing engineering and technology which are critical for adopting Industry 4 0 The book discusses both traditional and advanced approaches used in various intelligent manufacturing applications Readers can expect to gain a comprehensive understanding of current trends challenges solutions and mitigating factors from this User Experience Design in the Era of Automated Driving Andreas Riener, Myounghoon Jeon, Ignacio publication Alvarez, 2022-01-01 This book is dedicated to user experience design for automated driving to address humane aspects of automated driving e g workload safety trust ethics and acceptance Automated driving has experienced a major development boost in recent years However most of the research and implementation has been technology driven rather than human centered The levels of automated driving have been poorly defined and inconsistently used A variety of application scenarios and restrictions has been ambiguous Also it deals with human factors design practices and methods as well as applications

such as multimodal infotainment virtual reality augmented reality and interactions in and outside users This book aims at 1 providing engineers designers and practitioners with a broad overview of the state of the art user experience research in automated driving to speed up the implementation of automated vehicles and 2 helping researchers and students benefit from various perspectives and approaches to generate new research ideas and conduct more integrated research Algorithms for Multimedia and Imaging Michael N.
