Sposato, 2018-05-01 Leipzig Germany is renowned as the city where Johann Sebastian Bach worked as a church musician until his death in 1750 and where Felix Mendelssohn Bartholdy directed the famed Gewandhaus orchestra until his own death in 1847 But the century in between these events was critically important as well During this period Leipzig s church music enterprise was convulsed by repeated external threats a growing middle class that viewed music as an object of public consumption religious and political tumult and the chaos of the Seven Years and Napoleonic wars Jeffrey S Sposato s *Leipzig After Bach* examines how these forces changed church and concert life in Leipzig Whereas most European cities saw their

public concerts grow out of secular institutions such as a royal court or an opera theater neither of these existed when Leipzig's first subscription concert series the Grosse Concert was started in 1743 Instead the city had a thriving Lutheran church music enterprise that had been brought to its zenith by Bach Paid subscription concerts therefore found their roots in Leipzig's church music tradition with important and unique results These included a revolving door between the Thomaskantor position and the Gewandhaus directorship as well as public concerts with a distinctly sacred flavor Late in the century as church attendance faltered and demand for subscription concerts rose the Gewandhaus dominated the musical life of Leipzig influencing church music programming in turn Examining liturgical documents orchestral programs and dozens of unpublished works of church and concert music Leipzig After Bach sheds new light on a century that redefined the relationship between sacred and secular musical institutions The Chorales Archibald Wayet Wilson,1920

**Music and Religious Identity in Counter-Reformation Augsburg, 1580-1630** Alexander J. Fisher,2017-05-15 By the late sixteenth century Augsburg was one of the largest cities of the Holy Roman Empire boasting an active musical life involving the contributions of musicians like Jacobus de Kerle Hans Leo Hassler and Gregor Aichinger This musical culture however unfolded against a backdrop of looming religious schism From the mid sixteenth century onward Augsburg was the largest biconfessional city in the Empire housing a Protestant majority and a Catholic minority ruled by a city government divided between the two faiths The period 1580 1630 saw a gradual widening of the divide between these groups The arrival of the Jesuits in the 1580s polarized the religious atmosphere and fueled the assertion of a Catholic identity expressed in public devotional services spectacular processions and pilgrimages to local shrines The Catholic music produced for these occasions both reflected and contributed to the religious divide This book explores the relationship between music and

religious identity in Augsburg during this period How did Catholic and Protestant repertoires diverge from one another What was the impetus for this differentiation and what effect did the circulation and performance of this music have on Augsburg's religious culture These questions call for a new cross disciplinary approach to the music history of this era one which moves beyond traditional accounts of the lives and works of composers or histories of polyphonic genres Using a wide variety of archival and musical documents Alexander Fisher offers a holistic view of this musical landscape examining aspects of composition circulation performance and cultural meaning
