demonstrates how austerity has resulted in high rates of recidivism diminished what remains of the welfare state and increased inequality and punitiveness Despite a decade of failure there is a marked political reluctance to dispense with austerity and the governmental juggernaut continues to produce the same result As the spectre of recession increases caused in part by Brexit and COVID 19 these failures are ever more perilous This book blends the interdisciplinary perspectives of criminology public health sociology law social policy politics and economics to enable greater understanding of the impact of austerity on health governance prison healthcare the prison workforce and prisoners health and safety It challenges current policy practice and thinking and is a must read for anyone who wants to reflect on how the political economic structure can affect the governance and delivery of healthcare services in marginalised settings beyond prisons and indeed beyond England
