

THE UNIVERSITY OF CHICAGO

The image displays a collection of mathematical reference materials, likely from a vintage textbook or a specialized reference book. The materials are organized into several distinct sections, each with its own title and content.

Top Section: Trigonometric Tables

This section contains two large tables of trigonometric values. The left table lists values for angles from 0° to 90° in increments of 1°, with columns for sine, cosine, tangent, and cotangent. The right table lists values for angles from 0° to 90° in increments of 1°, with columns for secant and cosecant.

Middle Section: Logarithmic Tables

This section contains two large tables of logarithmic values. The left table lists values for numbers from 1 to 100, with columns for common logarithms (base 10) and natural logarithms (base e). The right table lists values for numbers from 1 to 100, with columns for common logarithms (base 10) and natural logarithms (base e).

Bottom Section: Algebraic Formulas

This section contains a collection of algebraic formulas, including the quadratic formula, the binomial theorem, and the Taylor series expansion for e^x. The formulas are presented in a clear, concise manner, with variables and constants clearly defined.

Right Section: Additional Tables

This section contains several smaller tables, including a table of powers of 2, a table of powers of 10, and a table of powers of 100. These tables provide quick reference for various mathematical calculations.

The overall layout is clean and professional, with a clear hierarchy of information. The use of color and bold text helps to distinguish between different sections and highlights important information. The tables are well-organized and easy to read, making them a valuable resource for students and professionals alike.
