

Kiat Sukses Menembus PKM 2013 & Pimnas 2012

30 April, 2012 - 14:28 by newsmasterFE

Dalam menyusun Program Kreativitas Mahasiswa (PKM) mahasiswa dituntut untuk berpikir kritis dan memandang sesuatu sebagai masalah yang perlu diteliti saat orang lain menganggapnya bukan sebagai masalah yang perlu diteliti. Orang yang berpikir kreatif cenderung berpikir terbalik dari orang pada umumnya, demikian disampaikan Pujiyanto, M.Pd. Dosen Jurusan Pendidikan Fisika FMIPA UNY sekaligus Pembimbing PKM dan Pimnas pada Pelatihan PKM dengan tema "Kiat Sukses Menembus PKM 2013 & Pimnas 2012" pada Sabtu (28/4) yang diselenggarakan oleh Fakultas Ekonomi Universitas Negeri Yogyakarta (FE UNY) di Auditorium FE UNY. Diikuti sebanyak 214 mahasiswa yang mendapatkan beasiswa pada tahun 2012. Acara dibuka oleh Dekan FE UNY Dr. Sugiharsono, M.Si. dan dihadiri pula Wakil Dekan II, III dan Dosen Pembimbing Kemahasiswaan dan Unit Kegiatan Kemahasiswaan Fakultas (UKMF).

Lanjut Pujiyanto, Peran dosen dalam membimbing penyusunan karya ilmiah mahasiswa sebaiknya harus mengenali tipe mahasiswa terlebih dahulu. Apakah mahasiswa tersebut memiliki banyak ide ataukah kurang memiliki ide. Bila mahasiswa tersebut memiliki banyak ide maka peran dosen pembimbing mengarahkan mahasiswa agar lebih fokus sebab pada umumnya dengan banyak ide menjadikan kegiatan mahasiswa tidak fokus. Namun bila mahasiswa kurang memiliki ide maka peran dosen pembimbing mengarahkan mahasiswa agar bergabung dengan teman lain yang memiliki ide dan berusaha untuk berkomitmen terhadap kerja tim dan seluruh anggota kelompok.

Asas penilaian dalam PKM memperhatikan 3 hal pokok yaitu kualitas, transparansi dan perlakuan yang sama. Tentunya kualitas ilmiah proposal harus mengandung kata kunci isu dan atau teknologi untuk mencapai tujuan yang akan dicapai, derajat inovasi dan proses yang ingin dicapai harus melebihi batas state of the arts serta azas kelayakan dan kecukupan. Selain itu juga kegunaan bagi masyarakat juga sangat diperhatikan antara lain; memberikan prospek perbaikan kesejahteraan, kesehatan dan keamanan masyarakat, memperbaiki tingkat keahlian masyarakat dan melestarikan atau meningkatkan kualitas lingkungan dan sumber daya alam, ujanmya.

Guide Pkm 2013:

The Learning and Development Handbook Michelle Parry-Slater, 2021-02-03 The skills needed in today's business world are not the same as they were in the past. Therefore upskilling, reskilling, and developing staff has never been more important. However, classroom training isn't the best way to achieve this with employees forgetting more than 70% of what they've been taught within just one day. Learning outside the workplace is social, digital, and immediate, and companies need to embrace this to achieve the productivity, performance, and revenue benefits that come from effective learning. *The Learning and Development Handbook* is a practical guide for L & D professionals wanting to move away from traditional classroom teaching but not sure where to start. Full of practical tips and advice, this is urgent reading for anyone in the learning profession. *The Learning and Development Handbook* includes advice on how to embed social and digital learning, make the most of blended learning, adopt brain-friendly learning, and design more effective learning content for improved employee engagement and performance. This book also provides guidance on how to identify learning needs in an organization, gather evidence to engage stakeholders, and align L & D strategy with overall business strategy. There is also expert guidance on how to evaluate and measure the effectiveness of learning, where to find the data needed to support learning activity. Written by an L & D practitioner for L & D practitioners, this book is packed full of tips, hints, tools, and models that can be used to improve both employee and overall business performance in the immediate, middle term, and long term future.

Early Intervention for Deaf and Hard-of-hearing Infants, Toddlers, and Their Families Marilyn Sass-Lehrer, 2016 *Early Intervention for Deaf and Hard of Hearing Infants, Toddlers, and Their Families* provides the evidence-based knowledge and skills needed by professionals to implement interdisciplinary and collaborative early intervention programming for infants and toddlers who are deaf or hard of hearing and their families. Contributors include deaf, hard of hearing, and hearing educators, audiologists, speech language pathologists, health care providers, and family members.

Worldwide Commonalities and Challenges in Information Literacy Research and Practice Serap Kurbanoglu, Esther Grassian, Diane Mizrachi, Ralph Catts, Sonja Spiranec, 2013-12-13 This book constitutes the refereed proceedings of the European Conference on Information Literacy (ECIL 2013) held in Istanbul, Turkey, in October 2013. The 73 revised full papers presented together with two keynotes, 9 invited papers, and four doctoral papers were carefully reviewed and selected from 236 submissions. The papers are organized in topical sections on overview and research policies and strategies, theoretical framework, related concepts, citizenship and digital divide, disadvantaged groups, information literacy for the workplace and daily life, information literacy in Europe, different approaches to information literacy, teaching and learning, information literacy instruction, assessment of information literacy, information literacy and K-12 information literacy, and higher education, information literacy skills of LIS students, librarians, libraries, and ethics.

The Routledge Companion to Humanitarian Action Roger Mac Ginty, Jenny H. Peterson, 2015-03-24 *The Companion on Humanitarian Action* addresses the political, ethical, legal,

and practical issues which influence reactions to humanitarian crisis. It does so by exploring the daily dilemmas faced by a range of actors including policy makers, aid workers, the private sector and the beneficiaries of aid, and by challenging common perceptions regarding humanitarian crisis and the policies put in place to address these. Through such explorations, it provides practitioners and scholars with the knowledge needed to both understand and improve upon current forms of humanitarian action. The Companion will be of use to those interested in a range of humanitarian programmes ranging from emergency medical assistance, military interventions, managing refugee flows and the implementation of international humanitarian law. As opposed to addressing specific programmes, it will explore five themes seen as relevant to understanding and engaging in all modes of humanitarian action. The first section explores varying interpretations of humanitarianism, including critical historical and political/economic explanations, as well as more practice-based explorations focused on notions, needs assessments and evaluation. Following this, readers will be exposed to the latest debates on a range of humanitarian principles, including neutrality and sovereignty, before exploring the key issues faced by the main actors involved in humanitarian crisis, from international NGOs to local community-based organizations. The final two sections address what are seen as key dilemmas in regards to humanitarian action and emerging trends in the humanitarian system, including the increasing role of social media in responding to crises. Whilst not a how-to guide, the Companion contains many practical insights for policy makers and aid workers, whilst also offering analytical insights for students of humanitarian action. Indeed, throughout the book, readers will come to the realization that understanding and improving humanitarian action simultaneously requires both active critical reflection and an acceptance of the urgency and timeliness of action that is required for humanitarian assistance to have an impact on vital human needs. Exploring a sector that is far from homogenous, both practitioners and scholars alike will find the contributions of this book offers them a deeper understanding of the motivations and mechanics of current interventions, but also insight into current changes and progress occurring in the field of humanitarian practice.

Multidisciplinary Design Optimization Supported by Knowledge Based Engineering

Jaroslav Sobieszcanski-Sobieski, Alan Morris, Michel van Tooren, 2017-05-08. Multidisciplinary Design Optimization supported by Knowledge Based Engineering supports engineers confronting this daunting and new design paradigm. It describes methodology for conducting a system design in a systematic and rigorous manner that supports human creativity to optimize the design objectives subject to constraints and uncertainties. The material presented builds on decades of experience in Multidisciplinary Design Optimization (MDO) methods, progress in concurrent computing and Knowledge Based Engineering (KBE) tools. Key features: Comprehensively covers MDO and is the only book to directly link this with KBE methods. Provides a pathway through basic optimization methods to MDO methods. Directly links design optimization methods to the massively concurrent computing technology. Emphasizes real world engineering design practice in the application of optimization methods. Multidisciplinary Design Optimization supported by Knowledge Based Engineering is a one stop shop.

guide to the state of the art tools in the MDO and KBE disciplines for systems design engineers and managers Graduate or post graduate students can use it to support their design courses and researchers or developers of computer aided design methods will find it useful as a wide ranging reference

in growth factor control of synaptic development and function Akira Yoshii, Martha Constantine-Paton, Nancy Y. Ip, 2015-08-31 Brain derived neurotrophic factor BDNF and its receptor tropomyosin receptor kinase B TrkB signaling has been extensively studied for its roles in the central nervous system CNS ranging from cell survival axonal and dendritic growth and synapse formation Intracellular signaling pathways triggered by BDNF activate gene transcription translation post translational functions trafficking of key synaptic proteins and synaptic release mechanism BDNF TrkB signaling mediates long lasting activity modulated synaptic changes on excitatory and inhibitory neurons and plays significant roles in

circuit development and modulation Furthermore this pathway is critical for learning memory sensory processing and other cognitive functions and is implicated in neurological and psychiatric diseases In addition to BDNF more recent studies have identified new growth factors that play important roles in the development maturation and maintenance and modulation of synaptic function However details of the cytoplasmic signaling systems downstream of these synaptogenic factors are often less understood than conventional neurotrophin signaling This e Book has collected original studies and review articles that present cellular and molecular mechanisms concerning activity dependent synapse formation and their implications for behavior and brain disorders It is our hope that readers will perceive this volume as a showcase for diversity and complexity of synaptogenic growth factors and will stimulate further studies in this field

Knowledge and the City Francisco Javier Carrillo,Tan Yigitcanlar,Blanca García,Antti Lönnqvist,2014-08-01 This book underlines the growing importance of knowledge for the competitiveness of cities and their regions Examining the role of knowledge in its economic socio cultural spatial and institutional forms for urban and regional development identifying the preconditions for innovative use of urban and regional knowledge assets and resources and developing new methods to evaluate the performance and potential of knowledge based urban and regional development the book provides an in depth and comprehensive understanding of both theoretical and practical aspects of knowledge based development and its implications and prospects for cities and regions

Ecotoxicology and Genotoxicology Marcelo L Larramendy,2017-07-05 The potential impact of anthropogenic pollutants such as agrochemicals on the environment is of global concern Increasing use of certain compounds can result in contamination of food water and atmospheric systems and in order to combat this pollution it is important to be able to accurately monitor the short and long term effects This book describes the latest aquatic species models used as indicators of the toxic effects of environmental pollutants including models that have not routinely been used The book enables understanding of the effects of pollutants in non target species and therefore enables analysis of the effects on ecosystems This book will be of interest to anyone interested in developing new biomarker species with high degrees of ecological relevance It will serve as a useful resource for regulatory and research toxicologists particularly those studying freshwater marine water and sediment environments
