About the Author

THEODORE S. RAPPAPORT holds the William and Bertha Moore Chair in Electrical Engineering at the University of Texas, Austin and is the James H. and Patricia H. Moore Professor of Communications Engineering and Emerging Technologies. From 1980 to 1982 he founded the Mobile & Portable Radio Research Group at Virginia Tech, one of the first university research and educational programs focused on wireless communications. Rappaport has developed dozens of commercial products that used his theory, concepts and innovations, the two other related fundamental research and teaching materials used in industry short courses and in university classrooms around the globe. His current research focuses on new methods for protecting and distributing wireless broadband and portable Internet access by integrating frequency reuse, and on low complexity, modeling, and practical use of 3-D ultra-wideband propagation techniques for future wireless networks.
