Oxford Handbook of Medical Ethics and Law Anna Smajdor, Jonathan Herring, Robert Wheeler, 2022 Doctors have been concerned with ethics since the earliest days of medical practice Traditionally medical practitioners have been expected to be motivated by a desire to help their patients Ethical codes and systems such as the Hippocratic Oath have emphasised this During the latter half of the 20th century advances in medical science in conjunction with social and political

changes meant that the accepted conventions of the doctor patient relationship were increasingly being questioned After the Nuremberg Trials in which the crimes of Nazi doctors among others were exposed it became clear that doctors cannot be assumed to be good simply by virtue of their profession Not only this but doctors who transgress moral boundaries can harm people in the most appalling ways
