CONTEXTUALISING ISLAM IN PSYCHOLOGICAL RESEARCH (IIUM PRESS) Mariam Adawiyah Dzulkifli, Nor Diana Mohd Mahudin, 2021-03-10

This book is intended to present a compilation of research that bas

incorporated the Islamic philosophical theoretical and historical perspective with the concepts theories and methods in psychology While the relationship between Islam research and psychology has been studied previously the effort to incorporate integrate and use Islamic resources to examine phenomena related to psychology through rigorous scientific methods has been found to be lacking among Muslim researchers The present book therefore is an attempt to meet this need by incorporating the Islamic perspective in the conduct of research in psychology It is also an attempt to contextualize Islam in the current efforts in research on psychology so that we can better understand the religion both as an established way of life and as a model of scientific inquiry Finally the remaining chapters are dedicated to the discussion of the conceptual and strategic way forward for research in specific areas of psychology In doing so both the rationale and practicalities of incorporating integrating and utilizing Islamic resources in research on psychology have been provided

Trauma and Resilience in Contemporary Australian Policing Andrew Paterson, 2021-08-18 This book examines how fifty police officers in South Australia keep well and bounce back from duty related traumatic experience in the absence of practical accessible and timely organisational support It investigates mechanisms police officers presently use to normalise their duty related traumatic experiences to preserve the delicate professional balance between coping and psychic numbing and avoid the much publicised perils of a PTSD diagnosis while being appropriately responsive to colleagues victims and survivors in their daily work environment By revealing how police officers manage trauma outside of the expectations of mental health professionals union representatives and police leadership innovative approaches and recommendations are offered to support first responders in moving from assumptions of post traumatic stress and through post traumatic growth The book considers recent advances in post traumatic growth and resilience theory and reinterprets exposure in a positive context as well as preventative experiences in Australia and internationally

Moral Resilience, Second Edition Cynda H. Rushton, 2024

Suffering is an unavoidable reality in health care Not only are patients and families suffering but also the clinicians who care for them Commonly the suffering experienced by clinicians is moral in nature reflecting the increasing complexity of health care their roles within it and the expanding range of available interventions Moral suffering is the anguish experienced in response to various forms of moral adversity including moral harms wrongs or failures or unrelieved moral stress Confronting moral adversity challenges clinicians integrity the inner harmony that arises when their essential values and commitments are aligned with their choices and actions The most studied response to moral adversity is moral distress The sources and sequelae of moral distress one type of moral suffering have been documented among clinicians across specialties Recent interest has expanded to include a more corrosive form of moral suffering moral injury Moral resilience the capacity to restore or sustain integrity in response to moral adversity offers a path designing individual and system solutions to address moral suffering It encompasses capacities aimed at developing self regulation and self awareness buoyancy moral efficacy self stewardship and ultimately personal and relational integrity Moral resilience has been shown to be a protective

resource that reduces the detrimental impact of moral suffering Clinicians and healthcare organizations must work together to transform moral suffering by cultivating the individual capacities for moral resilience and designing a new architecture to support ethical practice Used worldwide for scalable and sustainable change the Conscious Full Spectrum Response offers a method to solve problems to support integrity shift patterns that undermine moral resilience and ethical practice and source the inner potential of clinicians and leaders to produce meaningful and sustainable results that benefit all *Handbook of Social Sciences and Global Public Health* Pranee Liamputtong, 2023-09-09 This handbook highlights the relevance of the social sciences in global public health and their significantly crucial role in the explanation of health and illness in different population groups the improvement of health and the prevention of illnesses around the world Knowledge generated via social science theories and research methodologies allows healthcare providers policy makers and politicians to understand and appreciate the lived experience of their people and to provide sensitive health and social care to them at a time of most need Social sciences such as medical sociology medical anthropology social psychology and public health are the disciplines that examine the sociocultural causes and consequences of health and illness It is evident that biomedicine cannot be the only answer to improving the health of people What makes social sciences important in global public health is the critical role social cultural economic and political factors play in determining or influencing the health of individuals communities and the larger society and nation This handbook is comprehensive in its nature and contents which range from a more disciplinary based approach and theoretical and methodological frameworks to different aspects of global public health It covers Discussions of the social science disciplines and their essence concepts and theories relating to global public health Theoretical frameworks in social sciences that can be used to explain health and illness in populations Methodological inquiries that social science researchers can use to examine global public health issues and understand social issues relating to health in different population groups and regions Examples of social science research in global public health areas and concerns as well as population groups The Handbook of Social Sciences and Global Public Health is a useful reference for students researchers lecturers practitioners and policymakers in global health public health and social science disciplines and libraries in universities and health and social care institutions It offers readers a good understanding of the issues that can impact the health and well being of people in society which may lead to culturally sensitive health and social care for people that ultimately will lead to a more equitable society worldwide **Oxford Textbook of Public Mental Health** Dinesh Bhugra, Kamaldeep Bhui, Samuel Yeung Shan Wong, Stephen E. Gilman, 2018-09-13 Prevention of mental illness and mental health promotion have often been ignored in the past both in undergraduate and postgraduate curricula Recently however there has been a clear shift towards public mental health as a result of increasing scientific evidence that both these actions have a serious potential to reduce the onset of illness and subsequent burden as a result of mental illness and related social economic and political costs A clear distinction between prevention of mental illness and mental health promotion is

critical Selective prevention both at societal and individual level is an important way forward The Oxford Textbook of Public Mental Health brings together the increasing interest in public mental health and the growing emphasis on the prevention of mental ill health and promotion of well being into a single comprehensive textbook Comprising international experiences of mental health promotion and mental well being chapters are supplemented with practical examples and illustrations to provide the most relevant information succinctly This book will serve as an essential resource for mental and public health professionals as well as for commissioners of services nurses and community health visitors Working with Children and Youth with Complex Needs Michael Ungar,2014-09-25 Working with Children and Youth with Complex Needs provides a detailed description of techniques and rich stories of how social workers psychologists counselors and child and youth care workers can help young people become more resilient With ample case studies and fascinating explanations of research Dr Ungar shows why we need to work just as hard changing the environments that surround children as we do changing children themselves Building on lessons learned from clinical community and residential settings Dr Ungar discusses 20 skills that can enhance the effectiveness of frontline mental health services Along with descriptions of the skills necessary to talk with clients about the factors that put their mental health at risk Working with Children and Youth with Complex Needs also presents systemic practices clinicians can use in their everyday work Engaging with children s extended family addressing issues of community violence racism and homophobia and helping parents and teachers understand children s maladaptive coping strategies as sometimes necessary are among the many practical strategies that are discussed which clinicians can use to enhance and sustain the therapeutic value of their work
