economies **Rethinking the Social in Innovation and Entrepreneurship** Callegari, Beniamino, Misganaw, Bisrat A., Sardo, Stefania, 2022-03-10 Offering a comprehensive classification of the analytical approaches to the social within the fields of innovation and entrepreneurship studies this book showcases a wide variety of perspectives and a collection of theoretical analysis tackling social complexity **Capability Building and Global Innovation Networks** Michael Gastrow, Glenda Kruss, 2017-10-02 This book explores the dynamics of global innovation networks and their implications for development Knowledge is often seen as the main determinant of economic growth competitiveness and employment There is a strong causal interaction between capability building and the growth in demand for and supply of technical and organizational innovation This complex of skills knowledge and innovation holds great potential benefit for development particularly in the context of developing countries However despite evidence of the increasing importance of knowledge and innovation there has been relatively little research to understand the distribution and coordination of innovation and knowledge intensive economic activities on a global scale and what this might mean for economic development Each chapter though sharing an underlying conception of innovation systems innovation networks and their relation to capability building and development takes a different theoretical stance The authors explore the emerging relationship between competence building and the structure of global innovation networks thus providing a valuable new perspective from which to critically assess their development potential This book was originally published as a special issue of Innovation and Development

Innovation Spaces in Asia Maureen McKelvey, Sharmistha Bagchi-Sen, 2015-02-27 Innovation Spaces in Asia provides insight into how and why Asia is poised to impact global innovation Asia is undergoing rapid developments in markets sources of technology and user preferences A key characteristic of the book is the rich empirical *The Cluster Organization* Anna Maria Lis, Adrian Lis, 2021-02-22 Cluster organizations are becoming more and more popular both in developing and developed countries Considering the development of cluster policy and the related dynamic growth of cluster initiatives in the world the lack of sufficient knowledge on the development of cooperation in cluster organizations inhibits their development and in many cases causes their complete disintegration The book provides new important elements to the current system of knowledge filling in cognitive and research gaps in the scientific literature on problems related to cooperation in cluster organizations The most valuable features for the reader concern the epistemological methodological and application aspects The new element includes a theoretical concept which refers to the trajectory of development of cooperative relationships in cluster organizations that facilitates the understanding and explanation of mechanisms responsible for cooperation in such organizations The concept also has great practical advantages especially for people implementing the idea of clustering coordinators facilitators and members of cluster organizations as well as politicians and public authorities are responsible for shaping and implementing the cluster policy It will be of value to researchers academics and students in fields with an interest in organizational studies management of innovation and technology

strategic management industrial economics and economic geography *When is Regional Beautiful?* Bjorn Asheim,Olof Ejermo,Annika Rickne,2013-10-18 This book focuses on the importance of geography and space in explaining knowledge flows entrepreneurship and innovation During the last few decades spatial perspectives have enjoyed a growing attention outside the specific discipline of geography both in academic economics and among practitioners of policy and planning This book constitutes a selection of empirical contributions based on data from Canada the Netherlands Sweden Switzerland and the United Kingdom The studies address issues of the characteristics of intra vs interregional knowledge flows Weterings and Ponds the restructuring process when a large pharmaceutical Pharmacia closes activities Dahlgren and Valentin the different structure of university industry relationships in three countries with differential types of universities Broström McKelvey and Sandström the locational organization of knowledge intensive business services KIBS in a metropolitan region Shearmur and Doloreux the background of individuals in KIBS start ups Andersson and Hellerstedt and give a critical scrutiny of attempts to create Regional Innovation Systems Nuur Gustavsson and Laestadius The contributions thus address relevant contemporary issues regarding the structure of the service economy the role of academia and renewal of industries They provide valuable information useful to policy makers planners and academics *Creative Industry Districts* Jinliao

He,2013-11-19 Since the late 1990s there have been broad discussions concerning the rapid rise of the creative economy Creative or cultural industry is seen as the new engine of the regional growth for both developed economies and emerging nations At the point of transition in economy and society China is recently striving to transform its economy from made in China towards created in China This book provides an insight into creative industries and spaces in Shanghai which is the fastest growing megacity in China and the center of modern economic development on a global scale Underpinned by new approaches from economic geography and urban studies it deals with the new relations between the creative economy and urban environment in Shanghai Over the last decade creative clusters have been rapidly emerging in particular locations in the central city of Shanghai This spatial phenomenon is explained in the book through an analysis of dynamics networks and implications **Entrepreneurship and Cluster Dynamics** Cristina Boari,Tom Elfring,Xavier Molina-Morales,2016-06-10

Entrepreneurship and Cluster Dynamics focuses on the origin and development of clusters and specifically on the role played by the strategic entrepreneurship in these contexts Although separately entrepreneurship and cluster studies have already attracted the attention of academics and practitioners this book aims to go further and offer an integrated and interactive view of topics The cross cutting approach is one of the main attributes of this book In fact the book involves a great range of organizational and economic perspectives from social psychology to conventional applied economics disciplines Moreover these topics allow the use of different levels of analysis from the individual entrepreneur behind a start up to the structure of cluster networks including the organizational levels An analysis of the change and development of clusters going further than traditional functional approaches by examining how entrepreneurs and their actions are not only influenced by the cluster

but also shape the cluster development will offer an explanation of how entrepreneurship and networking entrepreneurs can foster perhaps also inhibit cluster development and change Finally Entrepreneurship and Cluster Dynamics theorizes about the role of the strategic entrepreneurship in developing start ups inside already established companies which can play the role of broker in the cluster Entrepreneurship and Cluster Dynamics offers a unique opportunity to academics researchers and students to learn about relations and interactions between entrepreneurship and cluster perspectives providing both newly and original theoretical propositions and also rigorous conclusive empirical exercises

The Life Cycle of Clusters

Dirk Fornahl,Robert Hassink,2017-04-28 One size fits all cluster policies have been rightly criticized in the literature One promising approach is to focus cluster policies on the specific needs of firms depending on the stage of development emergence growth sustainment or decline their cluster is in In this highly insightful book these stage specific cluster policies are analysed and evaluated Moreover several chapters also focus on smart specialization policies to promote regional development by taking into account the emergence and adaptation of clusters and industries

Knowledge Transfer in the Automobile Industry

Dessy Irawati,2011-09-29 The book provides a detailed theoretical framework and a case study on how FDI in the form of knowledge transfer from overseas MNEs contributes to the upgrading of regional manufacturing clusters Although regional clusters have been the subject of many books this book is one of the few that explicitly links regional clusters to global networks It explains how being part of global networks can both facilitate and hinder the development of a regional cluster

Local and Regional Development Andy Pike,Andrés Rodriguez-Pose,John Tomaney,2016-07-15 Actors and institutions in localities and regions across the world are seeking prosperity and well being amidst tumultuous and disruptive shifts and transitions generated by an increasingly globalised knowledge intensive capitalism global financial instability volatility and crisis concerns about economic social and ecological sustainability climate change and resource shortages new multi actor and multi level systems of government and governance and a re ordering of the international political economy state austerity and retrenchment and new and reformed approaches to intervention policy and institutions for local and regional

development Local and Regional Development provides an accessible critical and integrated examination of local and regional development theory institutions and policy in this changing context Amidst its rising importance the book addresses the fundamental issues of what kind of local and regional development and for whom its purposes principles and values frameworks of understanding approaches and interventions and integrated approaches to local and regional development throughout the world The approach provides a theoretically informed critical analysis of contemporary local and regional development in an international and multi disciplinary context grounded in concrete empirical analysis from experiences in the global North and South It concludes by identifying what might constitute holistic inclusive progressive and sustainable local and regional development and reflecting upon its limits and political renewal

Innovation Policy in the

Knowledge-Based Economy M.P. Feldman,Albert N. Link,2012-12-06 Scholars in the science and technology field have not collectively questioned much less proposed an agenda for policy makers Now is an appropriate time for such an undertaking First there is a growing belief that the U S national research and development system like that of many industrial nations is changing due to global competitive pressures and advancements in information technology and electronic commerce Second industry s R D relationship with the academic research community is changing not only because of the global competition but also because of alterations in the level of government support of fundamental research As a result policy makers will need to rethink their approaches to science and technology issues This volume is a collection of essays by scholars about innovative policy in the knowledge based economy By knowledge based economy we mean one for which economic growth is based on the creation distribution and use of technology As such innovation policy in such an economy must enhance the creation distribution and use of knowledge that leads to the creation distribution and use of technology This volume considers elements of an innovation policy innovation policy and academic research innovation policy in electronic commerce and innovation policy and globalization issues
