Brown, 2011-01-07 This two volume critical history of French children's literature from 1600 to the present helps bring awareness of the range quality and importance of French children's literature to a wider audience The works of a number of French writers notably La Fontaine Charles Perrault Jules Verne and Saint Exupéry were and continue to be widely translated and adapted and have influenced the development of the genre in other countries *Histoire d'un paysan par Erckmann-Chatrian* Émile Erckmann, 1869 **Finding List of French, Italian, and Spanish Prose Fiction** Public Library of Cincinnati and Hamilton County, 1904 **Soldier and Peasant in French Popular Culture, 1766-1870** David M. Hopkin, 2003 Concentrating on the militarised borderlands of eastern France this book examines the disjuncture between the patriotic expectations of elites and the sentiments expressed in folksongs folktales and popular imagery in which issues of sexuality violence and separation took far greater prominence Hopkin follows the soldier through his life cycle from greenhorn recruit to grizzled veteran to show how the peasant conscript was separated from his previous life and re-educated in military mores and the response that this transformation elicited from his family and community **BOOK JACKET**

Self and Story in Russian History Laura Engelstein, Stephanie Sandler, 2018-08-06 Russians have often been characterized as people with souls rather than selves *Self and Story in Russian History* challenges the portrayal of the Russian character as selfless self-effacing or self-torturing by exploring the texts through which Russians have defined themselves as private persons and shaped their relation to the cultural community The stories of self under consideration here reflect the perspectives of men and women from the last two hundred years ranging from westernized nobles to simple peasants from such famous people as Tolstoy Dostoyevsky Akhmatova and Nicholas II to lowly religious sectarians Fifteen distinguished historians and literary scholars situate the narratives of self in their historical context and show how since the eighteenth century Russians have used expressive genres including diaries novels medical case studies films letters and theater to make political and moral statements The first book to examine the narration of self as idea and ideal in Russia this vital work contemplates the shifting historical manifestations of identity the strategies of self-creation and the diversity of narrative forms Its authors establish that there is a history of the individual in Russian culture roughly analogous to the one associated with the West *French Literature: Classification schedule, classified listing by call number, chronological listing* Harvard University. portraits trace the development of the European self over a period of some two thousand years They include elements of travelogue and art criticism together with discourses on myth history and philosophy Examining Pater s methods of composition use of narrative voice and construction of character the book draws on all of Pater s oeuvre and includes discussions of a range of his unpublished manuscripts essays and reviews It engages with Pater s dialogue with the visual portrait and problematises the oscillation between type and individual the generic and the particular which characterises both the visual and the literary portrait Exploring Pater s involvement with nineteenth century historiography and collective memory the book positions Pater s fiction solidly within such nineteenth century genres as the historical novel and the Bildungsroman while also discussing the portraits as specimens of biographical writing As the Ur texts from which generations of modernist life writing developed Pater s imaginary portraits became pivotal for such modernist writers as Virginia Woolf and Harold Nicolson Walter Pater s *European Imagination* explores such twentieth century successors together with French contemporaries like Sainte Beuve and followers like Marcel Schwob *Men of the Third republic* [by E.C.G. Library,1874 *A History of Hygiene in Modern France* Steven Zdatny,2024-03-21 This book tells the story of an epochal change in the human condition that was part of what is often thought of as modernization a process that remade culture and society in France in the 19th and 20th centuries Hygiene Steven Zdatny convincingly contends was that change He reflects on how the development of hygiene changed the way people thought about and treated their bodies put an end to age old afflictions and brought comfort where discomfort had been the unavoidable companion of existence and helped produce a tripling of life expectancy The book considers how the evolution of hygiene produced a society where people washed often changed their clothes every day lived without lice and scabies and performed their natural functions indoors It reflects on developments in industrial plumbing public education government investment the invention of new products to keep bodies and homes clean and a parallel makeover in the expectations sensibilities and practices about what is proper and what is disgusting These developments the study reveals were not steady and did not happen everywhere at the same pace But in the fullness of time they produced a revolution in the human condition *Rethinking France* Pierre

Nora, 2001 How do we visualize a state or a nation Some might imagine territory the borders that divide countries that mark the space where power is exercised and history evolves Others might picture natural aspects like mountains rivers and landscapes that make their own country distinct For Pierre Nora these are historical and geographical conceptions of space And in the case of the French these conceptions are not separate but instead uniquely linked They are key to understanding French national identity In *Space* the second volume in the University of Chicago Press's translation of Nora's ambitious *Les Lieux de memoire* a group of France's leading historians and cultural commentators call attention to the meaning of space for the French and the firm connection between the nation's history and its geography The essays gathered here cover the most essential approaches to French space external and internal boundaries the base unit of local space and the mental construction that gives a general idea of the concept of landscape The analyses focus on three aspects of natural boundaries the forest the north and the south and the coastline Each region of France they show is a space of memory that is the fruit of all the knowledge that gives it shape statistical cartographical geological and historical A crucial piece in Nora's profound historical project on the way the French understand themselves this volume will be appreciated by any critical thinker with an interest in French history politics culture or philosophy

A Generation of Revolutionaries Ben Eklof, Tatiana Saburova, 2017-10-19 Anyone interested in digging deeper into some of the less examined facets of late imperial and early Soviet Russia will be well rewarded *American Historical Review* Nikolai Charushin's memoirs of his experience as a member of the revolutionary populist movement in Russia are familiar to historians but *A Generation of Revolutionaries* provides a broader and more engaging look at the lives and relationships beyond these memoirs It shows how after years of incarceration Charushin and friends thrived in Siberian exile raising children and contributing to science and culture there While Charushin's memoirs end with his return to European Russia this sweeping biography follows this group as they engaged in Russia's fin de siècle society took part in the 1917 revolution and struggled in its aftermath *A Generation of Revolutionaries* provides vibrant and deeply personal insights into the turbulent history of Russia from the Great Reforms to the era of Stalinism and beyond In doing so it tells the story of a remarkable circle of friends whose lives balanced love family and career with exile imprisonment and revolution
