The Daily Book of Art Colin Gilbert, Dylan Gilbert, Elizabeth T. Gilbert, Gabriel Guzman, Rebecca Razo, Sharon Robinson, Amy Runyen, David Schmidt, 2009-10-01 In today's fast paced world creative people are as eager as

ever to pursue their artistic passions but many of them simply don't have enough time. Catering to this modern dilemma we've concocted the perfect remedy for overburdened artists. The Daily Book of Art includes a year's worth of brief daily readings and lessons about the visual arts that entertain as they inform. Ten exciting categories of discussion rotate throughout the course of a year giving readers a well-rounded experience in the art world. From color psychology and aesthetic philosophy to the proverbial argument over whether elephants really can paint, art-starved readers will encounter a broad range of inspiring subjects. The ten categories of discussion include Art 101, Philosophy of Art, Art Through the Ages, Profiles in Art, A Picture's Worth 200 Words, Art from the Inside Out, Art Around the World, Artistic Oddities, Unexpected Art Forms, Step by Step Exercises. *Cultural Critique Through the Detour of Art* Kris Rutten, Keyan G. Tomaselli, 2025-06-30. This book brings together a selection of articles that have been published throughout a series of special issues of the journal Critical Arts: South North Cultural and Media Studies that originally focused on the so-called ethnographic turn in contemporary arts. An increasing wave of art events has occurred since the 1990s that have displayed significant similarities with anthropology and ethnography in their theorizations of cultural difference and representational practices. The aim of these works was to revisit the ethnographic turn in contemporary art by bringing together contributions from theorists, artists, and critics to engage critically with the ethnographic perspective in their work. This focus on the ethnographic turn has been expanded in subsequent special issues to explore how culture and society can be critically explored and challenged through the detour of art: how contemporary art practices engage with participation, interaction, and technology in an increasingly digital screen culture and what the role can be of critical art to conceptualize, contest, and/or develop an engaged and critical pedagogy. This collection aims to re-expose the special issues to an international audience by presenting a non-exhaustive selection of articles that exemplify the different perspectives and discussions that are tackled throughout. It starts with three of the introductory articles that have attracted large readerships and that give a detailed introduction for the special issues. The compilation ends with three so-called Vignettes: these are short statements and reflections by artists about their practice which are an important feature of the special issues. **The Publishers Weekly**, 1906. [The Equilibrium of Parliamentary Law-making](#) Viktor Kazai, 2024-08-01. This book is a response to the dangers posed to constitutional democracy by the continuous growth of executive power and the simultaneous decline of parliaments' role in policy formation. These phenomena are often manifested in the manipulation and even the violation of the rules of parliamentary law making called irregularities. If left without consequences, these irregularities can ultimately lead to the elimination of the procedural constraints imposed on the ruling political forces to prevent their arbitrary exercise of power. This work investigates the constitutional significance of the irregularities of parliamentary law making and explores the role that courts play in the remedy of these flaws. The analysis is premised on the concept of equilibrium. This explanatory concept denotes an ideal state in which parliamentary law making complies with the requirements of constitutionalism and judicial review is conceptualized.

as a mechanism suitable to achieve this aim The volume places the judicial review of the regulation and the practice of parliamentary law making at its center and discusses all the relevant legal concepts institutions and doctrines It combines theoretical analysis with case law centered comparative research covering a large number of decisions delivered by apex courts operating in various jurisdictions Due to this methodological choice the book aims to simultaneously contribute to the scholarly discourse and provide useful information to practicing lawyers and policymakers working in the areas of constitutional law and politics and comparative law
