- This controls the operation of indoor unit. The range of control is 7 meters.  - In direct sunlight.
 - In the vicinity of a heater.
- Handle the remote controller with care. Dropping it or getting it wet may compromise its signal transmission capability.
- After new batteries are inserted into the remote controller, the unit will initially require approximately 10 seconds responding to commands and operating.
- Once the outdoor unit stops, it will not restart for about 3 minutes (unless we switch OFF and ON the power or unplug and plug back the power cord again.) This is to protect the device and does not indicate a failure.
- If you press the FUNCTION selector button during operation, the device may stop for about 3 minutes for protection.
