Mason, Matthew P. Thomson, 2022 Detailed exploration of an enigmatic manuscript containing the texts to hundreds of songs but no musical notation The medieval songbook known variously as *trouv re* manuscript C or the Bern Chansonniere Bern Burgerbibliothek Cod 389 is one of the most important witnesses to musical life in thirteenth century France Almost certainly copied in Metz it provides the texts to over five hundred Old French songs and is a unique insight into cultures of song making and copying on the linguistic and political borders between French and German speaking lands in the Middle Ages Notably the names of *trouv res* including several female poet musicians are found in its margins names which would be unknown today without this evidence However the manuscript has received relatively little scholarly attention partly because the songs musical staves remained empty for reasons now unknown and partly because of where it was copied This collection of essays is the first to consider C on its own terms and from a range of disciplinary perspectives including philology art history literary studies and musicology The contributors explore the process of creating the complex object that is a music manuscript examining the work of the scribes and artists who worked on C and questioning how scribes acquired and organised exemplars for copying The peculiarly Messine flavour of the repertoire and authors is also discussed with contributors showing that C frames the tradition of Old French song from a unique perspective As a whole the volume demonstrates how in this eastern hub of music and poetry poet composers readers and scribes interacted with the courtly song tradition in fascinating and unusual ways

across languages and societies Eloquent clearly argued Times Literary Supplement Today we usually think of a book of poems as composed by a poet rather than assembled or adapted by a network of poets and readers But the earliest European vernacular poetries challenge these assumptions Medieval songbooks remind us how lyric poetry was once communally produced and received a collaboration of artists performers live audiences and readers stretching across languages and societies The only comparative study of its kind Songbook treats what poetry was before the emergence of the modern category poetry that is how vernacular songbooks of the thirteenth to fifteenth centuries shaped our modern understanding of poetry by establishing expectations of what is a poem what is a poet and what is lyric poetry itself Marisa Galvez analyzes the seminal songbooks representing the vernacular traditions of Occitan Middle High German and Castilian and tracks the process by which the songbook emerged from the original performance contexts of oral publication into a medium for preservation and finally into an established literary object Galvez reveals that songbooks in ways that resonate with our modern practice of curated archives and playlists contain lyric music images and other nonlyric texts selected and ordered to reflect the local values and preferences of their readers At a time when medievalists are reassessing the historical foundations of their field and especially the national literary canons established in the nineteenth century a new examination of the songbook's role in several vernacular traditions is more relevant than ever **Medieval Lyric** William Doremus

Paden, 2000 An essential volume for medievalists and scholars of comparative literature Medieval Lyric opens up a reconsideration of genre in medieval European lyric Departing from a perspective that asks how medieval genres correspond with twentieth century ideas of structure or with the evolution of poetry this collection argues that the development of genres should be considered as a historical phenomenon embedded in a given culture and responsive to social and literary change

quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1996 This book is a reference volume and a digest of more than a century of scholarly work on troubadour poetry Written by leading scholars it summarizes the current consensus on the various facets of troubadour studies Standing at the beginning Beware the Poetry Javier Castro-Ibaseta,2025-03-18 In the early seventeenth century Spanish rulers were confronted by an avalanche of political satires Beware the Poetry shows how these poetic libels helped articulate an early form of the public sphere profoundly transforming political culture Exploring a rich trove of mostly anonymous satirical works together with newsletters sermons and plays Javier Castro Ibaseta reconstructs the experiences of Madrilenians during the reigns of Philip III and Philip IV Castro Ibaseta proposes an original theory of political publics that corrects approaches that assume early modern Spain s public sphere mirrored the politics of England or France Instead he shows that in Spain publicness was distinct because the satires about the king s favorite and even about the king himself were consumed for pleasure and entertainment They did not create political communities or stir rebellious movements Read diachronically the long continuous evolving collection of satires reveals not just the opinions of the poets but something far more difficult to reconstruct the shifting demands interests uncertainties and worldviews of the audience that is the structure and dynamics of Madrid s emerging public sphere Applying an interdisciplinary approach of literary criticism and historical method Beware the Poetry presents an exciting new take on politics and poetry during the period often referred to as the Spanish Decadence It will be of special interest to scholars of early modern politics and Spanish literature and culture
