Sins of the Shovel Rachel Morgan,2023-11-06 Rachel Morgan s frank and incisive history begins with Richard Wetherill s discovery of Mesa Verde in Colorado in 1888 Subsequent expeditions by amateurs looters and budding professional archaeologists abetted the devastation of Indigenous sites throughout the Southwest These expeditions became the proving grounds for different conceptions of what archaeology should be and how it should be practiced Ultimately revulsion at the work of nineteenth century explorers led to more rigorous and ethical norms as well as federal regulation but the core issues of how we ought best to engage with the evidence and people of the past remain live ones today Morgan an archaeologist knows well the field s history of racism and unethical behavior and she is both unsparing and even handed in assessing what happened in the Southwest and how it informs relations among people and with the planet today *Return to Troy* ,2015-05-26 Return to Troy presents essays by American and European classical scholars on

the Director's Cut of Troy a Hollywood film inspired by Homer's Iliad The book addresses major topics that are important for any twenty first century representation of ancient Greek myth and literature in the visual media not only in regard to Troy the portrayals of gods heroes and women director Wolfgang Petersen's epic technique anachronisms and supposed mistakes the fall of Troy in classical literature and on screen and the place of the Iliad in modern popular culture Unique features are an interview with the director a report on the complex filming process by his personal assistant and rare photographs taken during the original production of Troy *Digging for Troy* Jill Rubalcaba, Eric H. an aesthetically and philosophically potent tableau that he calls the Hive He traces the Hive's evolution in epic poetry from Homer to Milton which establishes antithetical but complementary images of angelic and demonic bees that Swift Mandeville and Keats use variously to debate classical versus emerging ideas of the individual's relationship to society But the Hive becomes fully psychologized Hollingsworth argues only when its use by Conrad and Wells to explore Europe's colonial imagination of the Other is transformed by Kafka and Sartre into competing symbols of the modern self's existential condition
