The Oxford History of Classical Reception in English Literature (OHCREL) is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers. Covering the full range of English literature from the early Middle Ages to the present day, OHCREL both synthesizes existing scholarship and presents cutting-edge new research, employing an international team of expert contributors for each of the five volumes. OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods, the processes of canon formation, and the relations between literary and non-literary discourse. It conceives of reception as a complex process of dialogic exchange, and rather than offering large cultural generalizations, it engages in close critical analysis of literary texts. It explores in detail the ways in which English writers

engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This first volume and fourth to appear in the series covers the years c 800 1558 and surveys the reception and transformation of classical literary culture in England from the Anglo Saxon period up to the Henrician era Chapters on the classics in the medieval curriculum the trivium and quadrivium medieval libraries and medieval mythography provide context for medieval reception The reception of specific classical authors and traditions is represented in chapters on Virgil Ovid Lucan Statius the matter of Troy Boethius moral philosophy historiography biblical epics English learning in the twelfth century and the role of antiquity in medieval alliterative poetry The medieval section includes coverage of Chaucer Gower and Lydgate while the part of the volume dedicated to the later period explores early English humanism humanist education and libraries in the Henrician era and includes chapters that focus on the classicism of Skelton Douglas Wyatt and Surrey

The Spirit of England Stephen Medcalf,2017-07-05 Stephen Medcalf 1937 2006 was an essayist in the best traditional sense of that calling a writer not of books but of substantial and justly celebrated essays widely read in the Times Literary Supplement and elsewhere Medcalf s abiding question to the world was the Psalmist s What is man that thou art mindful of him His was a Blakean sense of Englishness far from the chocolate box painting or the television adaptation and for him the strongest writers were those keenly aware of their roots in the classical Anglo Saxon or Celtic past By gathering together Medcalf s most important work this volume shows the coherence of his thinking and of the elusive complicated literary

heritage he celebrated one which acknowledges the Greco Roman strain the Christian strain the down to earth humour and the sly irony Thirteen substantial essays cover Virgil the Bible the English translation of Alfred Piers Plowman the half alien culture of the high Middle Ages Chaucer s contemporary Thomas Usk Shakespeare s images of resurrection Horace and Kipling juxtaposed G K Chesterton T S Eliot s use of Ovid P G Wodehouse William Golding John Betjeman Geoffrey Hill and other writers The book concludes with perhaps Medcalf s most personal article of all his account of finding a baby in a phone box on a cold winter s night which first appeared in the Guardian Christmas Supplement in 2002

The Oxford Anthology of Roman Literature Peter E. Knox, J. C. McKeown, 2013-10-31 Though the wonders of ancient Roman culture continue to attract interest across the disciplines it is difficult to find a lively accessible collection of the full range of the era s literature in English The Oxford Anthology of Roman Literature provides a general introduction to the literature of the Roman empire at its zenith between the second century BC and the second century AD Two features of this extraordinarily fertile period in literary achievement as evidenced by this anthology are immediately and repeatedly clear how similar the Romans view of the world was to our own and perhaps even more obviously how different it was Most of the authors included in the anthology wrote in Latin but as the anthology moves forward in time relevant Greek texts that reflect the cultural diversity of Roman literary life are also included something no other such anthology has done in the past Roman literature was wonderfully creative and diverse and the texts in this volume were chosen from a broad range of genres drama epic philosophy satire lyric poetry love poetry By its very nature an anthology can abbreviate and thus obscure the most attractive features of even a masterpiece so the two editors have not only selected texts that capture the essence of the respective authors but also have included accompanying introductions and afterwords that will guide the reader in pursuing further reading The presentations of the selections are enlivened with illustrations that locate the works within the contexts of the world in which they were written and enjoyed The student and general reader will come away from this learned yet entertaining anthology with a fuller appreciation of the place occupied by literature in the Roman world
