The Air Force Way of War Brian D. Laslie, 2015-06-23 Laslie chronicles how the Air Force worked its way from the catastrophe of Vietnam through the triumph of the Gulf War and beyond. Robert M. Farley, author of *Grounded*, says the U.S. Air Force's poor performance in Operation Linebacker II and other missions during Vietnam was partly due to the fact that they had trained their pilots according to methods devised during World War II and the Korean War when strategic bombers attacking targets were expected to take heavy losses. Warfare had changed by the 1960s, but the USAF had not adapted. Between 1972 and 1991, however, the Air Force dramatically changed its doctrines and began to overhaul the way it trained pilots through the introduction of a groundbreaking new training program called Red Flag. In *The Air Force Way of War*, Brian D. Laslie examines the revolution in pilot instruction that Red Flag brought about after Vietnam. The program's new instruction methods were dubbed realistic because they prepared pilots for real-life situations better than the simple cockpit simulations of the past, and students gained proficiency on primary and secondary missions instead of superficially training for numerous possible scenarios. In addition to discussing the program's methods, Laslie analyzes the way its graduates actually functioned in combat during the 1980s and 90s in places such as Grenada, Panama, Libya, and Iraq. Military historians have traditionally emphasized the primacy of technological developments during this period and have overlooked the vital importance of advances in training, but Laslie's unprecedented study of Red Flag addresses this oversight through its examination of the seminal program. A refreshing look at the people and operational practices whose import far exceeds technological advances.

through each category and pick 3 side hustles that you would be happy to do Once you have them start putting actions behind the one you like most and give 100% focus to it in all the time you can spare from your normal job or career This way you give all focus to this one hustle and can decide in time if it truly will make you happy Once you have mastered it then you can start on your next hustle picks and master those Drop any that you find that do not make you happy If you don't love what you do you will never be a success at it We don't want you to just be rich in wealth we need you to also be rich in happiness Keep in mind that not all side hustles in this book will be thorough step by step instruction but will lead you in the correct path to take a learning journey in that hustle To give multiple steps we would be writing for ages and we want you to get to work on your side hustle as soon as possible Reading about it will not make you master it the application and execution of what is written is what makes you a master of that hustle Check us out at www.ProfitVestor.com
