Love Changes Urban Renaissance:

The Roots of Urban Renaissance Brian D. Goldstein, 2023-03-14 An acclaimed history of Harlem's journey from urban crisis to urban renaissance With its gleaming shopping centers and refurbished row houses today's Harlem bears little resemblance to the neighborhood of the midcentury urban crisis Brian Goldstein traces Harlem's Second Renaissance to a surprising source the radical social movements of the 1960s that resisted city officials and fought to give Harlemites control of their own destiny Young Harlem activists inspired by the civil rights movement envisioned a Harlem built by and for its low income predominantly African American population In the succeeding decades however the community based organizations they founded came to pursue a very different goal a neighborhood with national retailers and increasingly affluent residents The Roots of Urban Renaissance demonstrates that gentrification was not imposed on an unwitting community by unscrupulous developers or opportunistic outsiders Rather it grew from the neighborhood's grassroots producing a legacy that benefited some longtime residents and threatened others

Making Culture, Changing Society Tony Bennett, 2013-09-02 Making Culture Changing Society proposes a challenging new account of the relations between culture and society focused on how particular forms of cultural knowledge and expertise work on order and transform society Examining these forms of culture's action on the social as aspects of a historically distinctive ensemble of cultural institutions it considers the diverse ways in which culture has been produced and mobilised as a resource for governing populations These concerns are illustrated in detailed case studies of how anthropological conceptions of the relations between race and culture have shaped and been shaped by the relationships between museums fieldwork and governmental programmes in early twentieth century France and Australia These are complemented by a closely argued account of the relations between aesthetics and governance that in contrast to conventional approaches interprets the historical emergence of the autonomy of the aesthetic as vastly expanding the range of art's social uses In pursuing these concerns particular attention is given to the role that the cultural disciplines have played in making up and distributing the freedoms through which modern forms of liberal government operate An examination of the place that has been accorded habit as a route into the regulation of conduct within liberal social cultural and political thought brings these questions into sharp focus The book will be of interest to students and scholars of sociology cultural studies media studies anthropology museum and heritage studies history art history and cultural policy studies
