Love Dogs Katharina Von Leyen:

For the Love of Dogs Katharina Von Der Leyen, 2015-09-30 Dogs aren't exactly shy when it comes to expressing their feelings. They do everything we humans are afraid to: dogs are ecstatic and boisterous, tactless, openly enthusiastic, take delight in rolling in disgusting things, sleep when they're tired and don't care if you snore. Dogs teach us that joy is a way of life and that it does not depend on what happens each day; they always assume something fabulous is going to happen today. This book shows dogs as they truly are: bursting with happiness, tired after a hard play session, chewing on a 300 running shoe and locked in battle with a roll of toilet paper. It shows puppies so worn out by life's thrills that they fall asleep precisely where they were just standing on their wobbly little legs, and it shows dogs getting slower, older and wiser with a gaze that will break your heart. AUTHOR: Journalist Katharina von der Leyen is one of the most famous writers on dogs with more than 13 books as well as countless columns, articles and helpful advice pieces on living with them in publications including *Dogs* and *Bild am Sonntag*. She writes regularly on her blog *Lumpi4 de*. SELLING POINTS: With captions by Katharina von der Leyen who can write about dogs as few other people can, with humour that pokes a bit of fun but is full of love and understanding for both dogs and people. An homage to man's best friend and not just for dog lovers. 150 colour and b/w

Human-Animal Interactions in the Eighteenth Century, 2021-12-13 How did humans respond to the eighteenth century discovery of countless new species of animals? This book explores the gamut of intense human-animal interactions from love to cultural identifications, moral reflections, philosophical debates, classification systems, mechanical copies, insults and literary creativity. Dogs, cats and horses of course play central roles. But this volume also features human reflections upon parrots, songbirds, monkeys, a rhino, an elephant, pigs and geese all the way through to the admired silkworms and the not so admired bookworms. An exceptionally wide array of source materials are used in this volume's ten separate contributions plus the editorial introduction to demonstrate this diversity. As eighteenth century humans came to realise that they too are animals, they had to recast their relationships with their fellow living beings on Planet Earth. And these considerations remain very much live ones to this day. *Puppies* Katharina Von der Leyen, 2001 Puppies aren't merely dogs; they're baby dogs and like all babies they need extra special care. Here's a fun-to-read book filled with practical information on everything a first-time puppy owner needs to know: how to find a reliable place to purchase a dog, how to choose a puppy from a litter, dog and master getting used to each other, training and housebreaking, a puppy's relationships between puppy and children, and tips on nutritious feeding and health care. Also important to new dog owners is a detailed explanation of normal puppy growth and development plus a general description of puppy personalities according to breed. *Puppies* is beautifully illustrated with more than 125 delightful color photos. Helpful sidebars contain added tips for owners. American Book Publishing Record, 2001
