half of the nineteenth century To give everyone interested in contemporary Spanish American fiction a broad understanding of its literary antecedents this book offers an authoritative survey of four centuries of Spanish American narrative Naomi Lindstrom begins with Amerindian narratives and moves forward chronologically through the conquest and colonial eras the wars for independence and the nineteenth century She focuses on the trends and movements that characterized the development of prose narrative in Spanish America with incisive discussions of representative works from each era Her inclusion of women and Amerindian authors who have been downplayed in other survey works as well as her overview of recent critical assessments of early Spanish American narratives makes this book especially useful for college students and professors

The Poetics of Plants in Spanish American Literature Lesley Wylie, 2020-12-08 The Poetics of Plants in Spanish American Literature examines the defining role of plants in cultural expression across Latin America particularly in literature From the colonial georgic to Pablo Neruda's Canto general Lesley Wylie's close study of botanical imagery demonstrates the fundamental role of the natural world and the relationship between people and plants in the region Plants are also central to literary forms originating in the Americas such as the New World Baroque described by Alejo Carpentier as *nacido de rboles* The book establishes how vegetal imaginaries are key to Spanish American attempts to renovate European forms and traditions as well as to the reconfiguration of the relationship between humans and nonhumans Such a reconfiguration which persistently draws on indigenous animist ontologies to blur the boundaries between people and plants anticipates much contemporary ecological thinking about our responsibility towards nonhuman nature and shows how environmental thinking by way of plants has a long history in Latin American literature
