Finding Voice William B. Kincaid, 2012-11-30 In Finding Voice Kincaid employs an often used but somewhat elusive metaphor voice as a way of speaking of pastoral identity and contends that a lively imaginative pastoral voice emerges from a thorough grasp of context theology pastoral roles personal journey and systemic dynamics Designed as a text for the field education contextual education and supervised ministry experiences of seminary students and others preparing for congregational leadership Finding Voice examines in depth how people are experiencing each of these constituent parts of pastoral voice at their student ministry sites not only to learn about each of the areas but also to recognize and understand what is being called forth in the students as they engage these five key experiences and begin to visualize their future ministry The book further explores the opportunities created when the five aspects of pastoral identity are in conflict with one another In the absence of any one of these or the imbalance of them pastoral voice gets skewed and vibrant effective ministry is undermined Finding Voice urges students to begin now with field education to engage a practice of ministry that is imaginative courageous nimble and faithful

Jesus and his way of doing things *Ministry and Money* Dan Hotchkiss, 2002-12-31 Frank straightforward guidance for clergy seeking to develop a sound theology of money and skills for church administration *Ministry and Money* also puts forth a new strategy for self care and a confident approach to managing both personal and congregational finances Dan Hotchkiss wants to help clergy overcome their own anxieties about money matters so they can help others address the personal social and congregational aspects of this challenging and often difficult topic *Ptoxicocracy* M. C. Lohrmann, 2025-05-20 The call of the church is ptoxicocracy either as a witness and practitioner or as its ideal standard bearer in the world To have a meaningful stake in the lives of the poor argues M C Lohrmann would change the ways in which governance of all types national or local municipalities denominations religious judicatories and non profit boards determines its focus Lohrmann defines ptoxicocracy derived from the Greek ptoxi the poorest of the poor as governance by the materially poor a hybrid form of representative democracy whereby only persons of the lowest economic status are eligible for elected public office This model he contends allows us to step back from the coupling of wealth and power created by myths of meritocracy and a rich ruling class to envision a system that works for the good of the whole Looking to Scripture Lohrmann follows the through line of God's blessing of the poor in both the Hebrew and Christian canons How might the kingdom of God appear if God's preferential option for the poor became the lens through which we organized our lives together **Mobilizing Congregations** John W. Wimberly, Jr., 2015-03-06 This is an in depth look at the power teams bring to congregational work Wimberly demonstrates that younger generations in particular are much happier working in a team rather than a committee environment Congregations using teams are able to mobilize members across generations for both short and long term tasks After clarifying the differences between teams and committees readers learn the important steps needed to set up new teams Leaders who simply create a team without attention to the formation process increase the likelihood of team failure Using real world examples and case studies Wimberly addresses problems teams can expect to experience as well as ways to resolve those issues He highlights the surprising similarities between how teams and congregations function both positively and negatively providing keen insights from the business world and showing how they can be used to solve issues in congregations Here readers will find both the theory and practice of making a successful transition to a congregation doing its work through highly motivated efficient teams
