Governing Narratives Symbolic Politics And Policy Change Public Admin Criticism And Creativity:

Governing Narratives Hugh T. Miller, 2012-09-14 By highlighting the degree to which meaning making in public policy is more a cultural struggle than a rational and analytical project *Governing Narratives* brings public administration back into a political context In *Governing Narratives* Hugh T Miller takes a narrative approach in conceptualizing the politics of public policy In this approach signs and ideographs that is constellations of images feelings values and conceptualization are woven into policy narratives through the use of story lines For example the ideograph acid rain is part of an environmental narrative that links dead trees to industrial air pollution The struggle for meaning capture is a political struggle most in evidence during times of change or when status quo practices are questioned Public policy is often considered to be the end result of empirical studies quantitative analyses and objective evaluation But the empirical norms of science and rationality that have informed public policy research have also hidden from view those vexing aspects of public policy discourse outside of methodological rigor Phrases such as three strikes and you re out or flood of immigrants or don t ask don t tell or crack baby or the death tax have come to play crucial roles in public policy not because of the reality they are purported to reflect but because the meanings emotions and imagery connoted by these symbolizations resonate in our culture Social practices the very material of social order and cultural stability are inextricably linked to the policy discourse that accompanies social change Eventually a winning narrative dominates and becomes institutionalized into practice and implemented via public administration Policy is symbiotically associated with these winning narratives Practices might change again but this inevitably entails renewed political contestation The competition among symbolizations does not imply that the best narrative wins only that a narrative has won for the time being However unsettling the established narrative is a difficult political task particularly when the narrative has evolved into habitual institutionalized practice *Governing Narratives* convincingly links public policy to the discourse and rhetoric of deliberative politics [Sociological Abstracts](#) Leo P. Politics, Policy, and the Public Sphere Umut Korkut, Gregg Bucken-Knapp, Robert Henry Cox, Kesi Mahendran, 2016-04-29 This book studies the dynamics of political discourse in governance processes It demonstrates the process in which political discourses become normative mechanisms first marking socially constructed realities in politics second playing a role in delineating the subsequent policy frames and third influencing the public sphere *Political Creativity* Gerald Berk, Dennis C. Galvan, Victoria Hattam, 2013-12-05 Political Creativity intervenes in the lively debate currently underway in the social sciences on institutional change Editors Gerald Berk Dennis C Galvan and Victoria Hattam along with the contributors to the volume show how institutions inevitably combine order and change because formal rules and roles are always available for reconfiguration Creative action is not the exception but the very process through which all political formations are built promulgated and changed Drawing on the rich cache of antidualist theoretical traditions from poststructuralism and ecological theory to constructivism and pragmatism a diverse group of scholars probes acts of social innovation in many locations land boards in Botswana Russian labor relations international statistics global supply chains Islamic economics in Algeria Islamic sects and state authority in Senegal and civil rights reform colonization industrial policy and political consulting in the United States These political scientists reconceptualize agency as a relational process that continually reorders the nature and meaning of people and things order as an assemblage that necessitates creative tinkering and interpretation and change as the unruly politics of time that confounds the conventional ordering of past present and future Political Creativity offers analytical tools for reimagining order and change as entangled processes Contributors Stephen Amberg Chris Ansell Gerald Berk Kevin Bruyneel Dennis C Galvan Deborah Harrold Victoria Hattam Yoshiko M Herrera Gary Herrigel Joseph Lowndes Ato Kwamena Onoma Adam Sheingate Rudra Sil Ulrich Voskamp Volker Wittke Governing Fables Sanford F.
