wise and witty examination of petkeeping in nineteenth century Paris provides a unique window through which to view the
lives of ordinary French people She demonstrates how that cliché of modern life the family dog reveals the tensions that
modernity created for the Parisian bourgeoisie Kete s study draws on a range of literary and archival sources from dog care
books to veterinarians s records to Dumas s musings on his cat The fad for aquariums attitudes toward vivisection the dread
of rabies the development of dog breeding all are shown to reflect the ways middle class people thought about their lives
Petkeeping says Kete was a way to imagine a better more manageable version of the world it relieved the pressures of
contemporary life and improvised solutions to the intractable mesh that was post Enlightenment France The faithful
affectionate family dog became a counterpoint to the isolation of individualism and lack of community in urban life By
century s end however animals no longer represented the human condition with such potency and even the irascible
autonomous cat had been rehabilitated into a creature of fidelity and affection Full of fascinating details this innovative book
will contribute to the way we understand culture and the creation of class This title is part of UC Press s Voices Revived
